Cairo. Through a trackage arrangement with the Alabama Midland Ry. Co. this company is enabled to reach its terminal grounds in the heart of the city of Montgomery and also to jointly use a Belt Line, connecting with the other lines entering the city, and reaching the most important manufacturing industries in Montgomery. The company's passenger trains enter the union depot of the Louisville and Nashville RR. Co. in Montgomery, affording an interchange of passenger traffic with other lines.

3. History.—Chartered on Feb. 3, 1848. Land grant acquired under Act of Congress, Sept. 20, 1850. The first section of the road, 33 miles in length, was opened in 1852. The Aberdeen branch was opened in 1870, the Starkville Branch in 1874, and the Cairo Extension on Nov. 1, 1881. The Montgomery Division was opened on July 1, 1898, but was not merged with the M. & O. RR. system until July 1, 1899. In March, 1901, the Southern Ry. Co. acquired the control of a majority of the capital stock of this company and now owns and controls 49,326 shares of the capital stock and $7,947,000 of the general mortgage bonds. The road will continue to be operated as a separate property. (See Southern Ry. Co.)

The Mobile and Ohio RR. Co. has acquired all except 110 shares of the capital stock of the St. Louis and Cairo RR. Co. by issuing in exchange therefor, at the rate of $1,000 for every $3,000 of stock, the collateral trust gold bonds described in Sec. 13.

5. Interests in Other Properties.—The company owns the capital stock of the Mobile and Bay Shore Ry. Co. (see subjoined statement for that company), and of the Mobile Docks Co., the latter being the owner and lessee of the wharves fronting on Mobile River. The leased wharves are the property of the M. & O. RR. Co.

First Mtge. Bonds.—Secured on the main line from Mobile, Ala., to Columbus, Ky., 472 miles. Principal payable in gold; interest in lawful money.

First Mtge. Extension Gold Bonds.—Secured on the Kentucky and Tennessee RR. (Cairo Extension), and are also a first lien on the several branches of the M. & O. RR., 34 miles, upon the transfer and terminal properties in Cairo, Ill., and upon the net income of the road after payment of the expenses of its maintenance and operation and of the interest on the 1st mtge. bonds.

Montgomery Division Gold Bonds.—Secured as a first lien on the Montgomery Division and branches, 188.52 miles, and also cover equipment purchased with the proceeds of $500,000 of the bonds.

St. Louis and Cairo Collateral Trust Gold Bonds.—The amount in the statement is the total authorized, the amount outstanding on June 30, 1901, being $2,494,000. Of this amount, $2,161,000 were issued in exchange for $6,483,000 par value of the capital stock of the St. Louis and Cairo RR. Co., at the rate of a bond of $1,000 for each $3,000 of the stock, and $333,000 were issued for the acquisition of additional property and equipment. The remaining $6,000 of the bonds were in the hands of the trustee, being reserved for the exchange of the remainder of the $6,500,000 capital stock of the St. Louis and Cairo RR. Co. Up to June 30, 1902, a total of $6,489,000 par value of the capital stock of the St. Louis and Cairo RR. Co. had been acquired and deposited as security for the bonds of this issue. The bonds are subject to redemption on any interest day, at par and accrued interest. As a sinking fund for their redemption the company will pay yearly to the trustee so much of all dividends collected on the stock of the St. Louis and Cairo RR. Co. as may exceed in amount the interest maturing during the year on the collateral trust bonds outstanding. This fund is to be applied to the purchase of bonds in the open market, at a price not to exceed par and accrued interest. If bonds cannot be purchased at such a price an amount sufficient to exhaust the sinking fund is to be drawn by lot. All bonds purchased or redeemed, whether by action of the sinking fund or independently thereof, must be cancelled.

General Mtge. Gold Bonds.—By resolution of May 15, 1895, it is provided that no right to enforce the mortgage security can arise in consequence of failure to pay interest until there shall have been four successive coupons in default. The bonds are secured on the main line and branches, 527 miles, and on the lands of the company. The total authorized issue is $10,500,000, of which bonds for $9,469,545 are outstanding; $2,455 are held by the Farmers' Loan and Trust Co., to be exchanged for debentures, and $1,028,000 have been cancelled. "By the provisions of the general mortgage, the holder of each $500 thereof is entitled to one vote under the deed of trust of May 15,

1888, at all meetings held for the purpose of directing the Farmers' Loan and Trust Co. how to vote upon the debentures held by it for the benefit and security of the said general mortgage bonds, and for this purpose a 'voting register' has been established at the office of the company in the city of New York, where such voting power is inscribed in the names of the parties to whom the said general mortgage bonds may have been originally issued, and where any succeeding holder of the bonds may, from time to time, have the same inscribed in his own name for voting purposes."

The "A" Debentures are of the denominations of £50 and £100 each, and are a first lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Nov. 1, 1890, payable May 1 and Nov. 1. These bonds may be called for redemption at 115 at any time after 1910, upon six months' notice. The interest is to be paid out of the net profits from the date of first interest payment and, should the profits be insufficient to pay such interest, when accrued, it shall be cumulative. The full dividend has been paid to date.

The "B" Debentures are of the denominations of £20, £50, and £100 each, and are a second lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Nov. 1, 1890, payable May 1 and Nov. 1. These bonds, like the "A" debentures, may be redeemed at 115 after 1910, upon six months' notice. Interest is payable out of the net profits after payment of interest on "A" debentures, but is not cumulative. Should there be any deficiency in the payment of the full amount of interest for any first half-year, such deficiency shall be payable out of the profits of the second half, provided that the profits of the full year are sufficient for the purpose. Dividends have been paid as follows: In March, 1895, ¾ p. c.; in March, 1896, 1 p. c.; in Feb., 1897, 2½ p. c.; in Feb., 1898, 2¾ p. c.; in Feb., 1899, 4½ p. c.; in Jan., 1900, to 1903, 5 p. c. each year.

The "C" Debentures are of the denominations of £20 and £100, and are a third lien on the company's property. They are redeemable Nov. 1, 1940, and bear 5 p. c. interest from Oct. 1, 1890, payable April 1 and Oct. 1. Bonds may be redeemed at any time, at par, on six months' notice. Interest is payable out of profits after provision has been made for interest on "A" and "B" debentures. Dividends have been paid as follows: In Feb., 1900, 1⅜ p. c.; in 1902, 2⅝ p. c., and in Feb., 1903, 5 p. c.

Funded Debt.—The funded debt outstanding on June 30, 1902, consisted of $1,000,000 V. & M. RR. 1st gold 6s of April 1, 1921; $588,800 consol. 1st gold 5s of April 1, 1921, and $601,300 2d gold 5s of April 1, 1921. The original issue of 2d mtge. bonds was $700,000; canceled by proceeds of land sales, $98,700; outstanding, $601,300. The authorized issue of consol. mtge. bonds is $1,800,000, of which $1,000,000 is reserved for the retirement of the 1st mtge. bonds, the remaining $211,200 being held in the treasury.

Land Department.—Under Act of Congress, of Aug. 11, 1856, the Vicksburg and Meridian RR. Co. received a land grant estimated at 404,800 acres. In the reorganization the Alabama and Vicksburg Ry. Co. acquired, at the public sale, Feb. 4, 1889, 131,189.19 acres. There were sold during the fiscal year 1901-2 17,369 acres, and 45,392.67 acres remained unsold on July 1, 1902. NEW ORLEANS AND NORTHEASTERN RAILROAD COMPANY.

(Controlled by A., N. O., T. & P. Junction Rys. Co.)

1. Line of Road Owned.—Meridian, Miss., to New Orleans. 195.52 m. TRACKAGE: *Alabama and Vicksburg Ry.:* Yards at Meridian, Miss. 0.38 m.—195.90 miles. Sidings, etc., 67.08 miles. Gauge, 4 ft. 8½ in. Rail (steel; 257.53 m.), 60 and 75 lbs.

2. History.—Chartered in Louisiana on Oct. 14, 1868, and in Mississippi on March 30, 1871. The project lay dormant until 1881, when the control of the company was acquired by the Alabama, New Orleans, Texas and Pacific Junction Rys. Co. Construction was begun in 1882 and the road was opened throughout on Nov. 1, 1883. About two years later a floating debt that had accumulated was discharged by the issue of $1,320,000 of prior lien bonds, these taking precedence of the 1st mortgage bonds by consent of the holders of more than 99 per cent. of the latter. The finances of the company were again reorganized in May, 1902. $1,000,000 of capital stock and $1,500,000 of income bonds being issued for the retirement of a floating debt amounting to $1,967,377.90 and for the purchase of the New Orleans terminals, which had been until then operated under lease at a rental of $24,561 a year. As an additional measure of relief provision was made for an issue of general mortgage bonds to the amount of $8,000,000, of which $6,320,000 were set aside for the retirement of the $1,320,000 prior lien bonds and the $5,000,000 1st mortgage bonds, leaving $1,680,000 in the treasury available for the future requirements of the company. Of the $5,000,000 1st mortgage bonds, $4,900,000 had been exchanged for the new bonds at the close of the fiscal year, leaving only $100,000 of that issue outstanding. By these arrangements the finances have been placed on a sound basis, and the fixed charges reduced by $73,500 a year for mortgage interest and by $24,561 a year for rent of terminals.

There is a sinking fund of $65,000 a year for retirement of these bonds at par, and if they cannot be purchased at that price they are drawn by lot. The Cecilia Branch having been sold to the Illinois Central RR. Co. (statement for which see), the Louisville and Nashville RR. Evansville, Henderson and Nashville Division Gold Bonds.—Secured by first mortgage on the Henderson Division and Madisonville Branch. There is a sinking fund of $60,500 yearly till 1905, the amount increasing each five years thereafter till $150,000 per annum is reached. Pensacola Division Gold Bonds.—Secured on the line from Pensacola, Fla., to Flomaton, Ala. There is a sinking fund of $10,000 yearly increasing at stated periods till all the bonds are paid off. The sinking fund is applied to purchase of bonds at 105, but if they cannot be obtained at that price bonds are drawn by lot. They are also secured on the section of the Memphis Line between Guthrie (Kentucky Line) and Memphis and on the Henderson Division and Madisonville Branch, subject to the prior liens of the Memphis and Ohio, the Memphis, Clarksville and Louisville, and the Evansville, Henderson and Nashville mortgages. The mortgage provides for a sinking fund sufficient to retire the bonds before maturity, the company having the right to draw them by lot at 110 and interest. On June 1, 1903, $327,000 of the bonds were redeemed by action of the sinking fund.

Kentucky Central Ry. 1st Mtge. Gold Bonds.—Secured by first mortgage on 148.58 miles of railroad owned in fee simple by the Kentucky Central Ry. Co. (Covington to Roundstone Sink, Ky., 151.78 miles, less 3.2 miles between Richmond and Ft. Estill, which is a leasehold); on the proprietary interest of the Kentucky Central Ry. Co. in the Maysville and Lexington RR., Southern Division, from Paris to Lexington, Ky., 19 miles, and in the Maysville and Lexington RR., Northern Division, from Paris to Maysville, Ky., 49 miles; and on the perpetual leasehold estate held by the Kentucky Central Ry. Co. in the Richmond Branch of the Louisville and Nashville RR. Co. The Kentucky Central Ry. Co. owns all the capital stock of the two Maysville and Lexington companies; the Northern Division is subject to a mortgage securing $400,000 of 7 p. c. bonds maturing Jan. 1, 1906. The line between Roundstone Sink and Livingston, Ky., 3.34 miles, is owned by the Louisville and Nashville RR. Co. (the rails thereon are owned by the Kentucky Central Ry. Co.), certain leasehold rights therein being leased to the Kentucky Central Ry. Co. at a rental of $3,045 per annum. The Richmond Branch of the Louisville and Nashville RR. is leased by the Kentucky Central Ry. Co., at an annual rental of $24,000 per annum, the lessee having the right to purchase the line at any time for $400,000.

Paducah and Memphis Division Gold Bonds.—Secured by first mortgage on the Paducah and Memphis Division, 254.20 miles. The authorized amount is $5,000,000, of which bonds for $4,779,000 have been issued; but of these $2,400,000 are deposited with the United States Trust Co. of New York, as security for the five-twenty collateral trust gold bonds, and $2,379,000 are in the treasury of the company. The remaining bonds, $221,000, are reserved for improvements.

Unified Mortgage 50-year Gold Bonds.—Secured on the entire property and assets of the L. & N. RR. Co., of whatever description, but subject to prior liens. Of these there were on June 30, 1902, $18,758,660, to wit: $7,000 consol. mtge. bonds of April 1, 1898, $8,987,000 gen. mtge. bonds of June 1, 1930, $1,000 city of Louisville loan of Oct. 15, 1893, $1,764,000 1st mtge. 5 p. c. bonds of 1937, $5,000 Memphis and Ohio sterling bonds of June 1, 1901, $1,996,660 Memphis, Clarksville and Louisville bonds, $1,845,000 Evansville, Henderson and Nashville Division bonds, $3,000 1st mtge.

(of Jan. 1, 1897), $892,000 2d mtge., and $3,258,000 gen. mtge. bonds of the L., C. & L. Ry. Co. None of these prior liens can be extended, nor can further bonds be issued under any of the prior mortgages. In addition to an amount of bonds sufficient to retire all underlying bonds, the unified mortgage provided for $32,461,660 bonds (making a total of $75,000,000) to be issued for improvements, extensions, and other purposes of the company; those issued for extensions or for the purchase of other railroads to be at a rate not exceeding $32,000 per mile, including $7,000 per mile for equipment, and to become a lien, either by direct mortgage or collaterally, on the lines thus acquired. Under this provision the unified mtge. bonds have become a direct first mortgage on the following lines: Cumberland Valley Branch, extension from a point 46.5 m. from Corbin, Ky., to Norton, Va., 70.94 m.; Clarksville Mineral Branch, 38.03 m.; New and Old Decatur Belt and Terminal, 3.62 m.; Shelby Cut-off, 8.51 m.; Montgomery and Prattville RR., 10.35 m.; Sheffield and Tuscumbia RR., 2.63 m.; Middlesborough RR., 13.15 m.; Wilton Branch of Knoxville Division, 3.97 m.; Shelbyville, Bloomfield and Ohio RR., 26.72 m.; Cumberland River and Tennessee RR., 12.62 m.; Birmingham, Selma and New Orleans Ry., 60.25 m.; Alabama and Florida RR., 100.38 m.—total, 351.12 miles. 15. "Monon" Purchase Joint Gold Bonds.—After June 30, 1902, $11,683,000 of the 4 p. c. 50-year joint bonds of this company and the Southern Ry. Co. were issued in payment for $3,800,000 of the $5,000,000 preferred stock and $9,696,900 of the $10,500,000 common stock of the Chicago, Indianapolis and Louisville Ry. Co., on the terms stated in Section 2. The authorized issue is $15,500,000, of which bonds amounting to $1,817,000 are set aside to be used in acquiring the remaining shares of the common and preferred stock of the Chicago, Indianapolis and Louisville Ry. Co., while the remaining $2,000,000 are reserved for the betterment, improvement and enlargement of that company's property. The bonds reserved for betterments, etc., are to be issued under carefully guarded restrictions and at a rate not to exceed $500,000 a year. The bonds are secured by deposit of the shares against which they were issued, those shares being owned one-half each by the Louisville and Nashville RR. Co. and the Southern Ry. Co. Each of those companies is liable for one-half of the bonds, principal and interest, and each of them must bear one-half of all other obligations imposed by the indenture under which the bonds were issued. Should either company default in its obligations to the other in respect of the bonds, the deposited stock belonging to the defaulting company shall become the property of the company not in default, which thenceforth shall become liable in severalty upon all covenants contained in the bonds. It is provided that the C., I. & L. Ry. Co. shall not execute or issue any bonds except for the refunding of its existing obligations, or for the acquisition of additional property, or for betterments, improvements or other lawful purposes, and that no proceeds of any bonds to be issued by the C., I. & L. Ry. Co. can be used to pay any part of the joint bonds, unless all such joint bonds shall then be paid. The bonds may be called for redemption on any 1st of Jan. or 1st of July, after 1907, at 105 p. c. and accrued interest; but not less than $1,000,000 shall be called at any one time, nor shall any of the registered bonds be called until all the coupon bonds have been redeemed or called for redemption. The bonds may be issued either in coupon or registered form, the coupon bonds to be of the denomination of $1,000 and the registered bonds in denominations of $1,000, $5,000, $10,000 and multiples of $10,000. Coupon bonds may be registered as to principal alone or may be exchanged for fully registered bonds. Principal and interest are payable in gold, free of all taxes. Trustee and registrar of bonds: Standard Trust Co., New York, N. Y.

16. New Collateral Trust Bonds.—An issue of $30,000,000 of 4 p. c. gold bonds, to mature on April 1, 1923, has been authorized, and it is expected that $23,000,000 of them will be issued during 1903, partly to take up the $7,500,000 of five-twenty collateral trust bonds called for redemption April 1, 1903, and partly for the general purposes of the company. The bonds will be subject to redemption after five years at the option of the company. They will be secured by deposit of $24,000,000 unified mortgage bonds (of which $8,250,000 are in the treasury, $8,400,000 are pledged for the five-twenty bonds and $7,350,000 are to be received from the trustee), $4,779,000 Paducah and Memphis Division bonds, $2,500,000 Louisville and Nashville Terminal Co.'s bonds, $4,221,000 South and North Alabama RR. 5 p. c. bonds and $500,000 Pensacola and Atlantic RR. 1st mortgage bonds—a total of $36,000,000.

17. Guaranteed Bonds.—The Louisville and Nashville RR. Co. guarantees $3,130,190 sterling 6s and $4,771,000 consol. 5s of the South and North Alabama RR. Co. (see statement for that road in Sec. 20).

18. Construction Account.—The construction account was closed July 1, 1894, since which date the items which had been charged to that account have been charged to operating expenses under the sub-account of Improvement Account. The amount so charged during the year ending June 30, 1902, was $1,487,277.19. During the same period the cost of road was charged with $2,723,586.86, expended on various parts of the system as follows: Main stem, $1,059,362.16; Memphis Line, $120.55; Southern Alabama RR., $150,121.68; Louisville, Cincinnati and Lexington Ry., $128.48; Shelby Cut-off, $130.10; Alabama and Florida RR., $213,032.83; purchase of other rail-

Funded Debt.—The funded debt outstanding on June 30, 1902, consisted of $850,000 1st gold 5s of Jan. 1, 1911; $1,500,000 gen. gold 5s of Feb. 1, 1935, and $41,250 debenture bonds. The 1st mtge. bonds matured on Jan. 1, 1900, and on the same date interest on the gen. mtge. bonds, previously payable only if earned, became a fixed charge. The company being unable to meet both the principal of the 1st mtge. bonds and the interest on the gen. mtge. bonds, made default on the latter. An agreement for the readjustment of the affairs of the company, without foreclosure, was reached on Nov. 23, 1901, the substance of which is as follows:

First Mortgage Bonds.—These have been extended to July 1, 1911, at the same rate of interest, the company retaining the right, however, to redeem any or all of them at any time after Dec. 31, 1901, at not exceeding 102 p. c. and interest. Any bonds thus redeemed shall be cancelled and gen. mtge. bonds for equal amounts may be issued in place of them. The Readjustment Managers reserved the right, however, to cause to be paid off at par and interest so many of the outstanding 1st mtge. bonds as in their judgment could be safely paid by the appropriation of any money in the company's treasury. Bonds amounting to $150,000 have been so retired.

General Mortgage Bonds.—The holders of these agreed to waive all interest on their bonds up to Aug. 1, 1901, and to accept thereafter interest at the rate of 2 p. c. a year for the first five years and 3 p. c. a year for the next five years, the full rate of 5 p. c. a year to be resumed from Aug. 1, 1911. In consideration of such waiver the bondholders are to receive deferred debentures for the difference between 5 p. c. and the amount of interest accruing after Aug. 1, 1901, or say $250 per $1,000 bond. The debentures shall be payable without interest at such time as the company may decide, but they shall become immediately payable in case any dividend is declared upon the stock. At the option of the company they may be paid either in cash or in gen. mtge. bonds carrying the next maturing installment of interest.

$19,544,000; common, $19,542,800), $39,086,800. Preferred stock is entitled to 4 p. c. non-cumulative dividends, but to no further share of the yearly net profits. In case of liquidation or dissolution of the company it has priority over common stock to the amount of its full par value, but is entitled to no further share of the assets.

10. Funded Debt.—Funded debt, authorized and outstanding, consists of $22,000,000 1st lien gold 3½s of July 1, 1950, secured by deposit of practically all of the capital stock of the Chicago and Alton RR. Co., and by a direct first lien on the line from Springfield to Grove, Ill., 57.43 miles. The bonds are redeemable on any interest day at par and accrued interest, on six months' notice. The capital stock of the Chicago and Alton RR. Co. owned by this company and deposited as additional security under the first lien mortgage consists of $3,472,200 preferred stock and $18,322,400 common stock, out of a total issue of $3,479,500 preferred stock and $18,751,100 common stock. The first lien mortgage provides that the Chicago and Alton Ry. Co., as holder of the stock of the Chicago and Alton RR. Co., will not give its consent to the issue of any bonds under the refunding mortgage of the latter in excess of the $40,000,000 now authorized, except when such additional issue is expressly authorized by a three-fourths vote of the entire board of directors of the Chicago and Alton RR. Co. and approved by a three-fourths vote of the entire board of directors of the Chicago and Alton Ry. Co.

11. RAILROADS LEASED BY THE CHICAGO AND ALTON RY. CO.

CHICAGO AND ALTON RR.—Joliet to East St. Louis, Ill., 242.75 m.; Godfrey to Bloomington, Ill., 150.6 m.; Godfrey to Wann, Ill., 7.6 m.; Roodhouse to Quincy Junc., Ill., 37.62 m.; Joliet to Mazonia, Ill., 24.79 m.; Dwight to Washington, Ill., 70.5 m.; Varna to Lacon, Ill., 10 m.—total, 543.86 miles. Rail (steel), 60 to 80 lbs.

HISTORY.—Organized on Feb. 16, 1861, in pursuance of a plan for reorganization of the St. Louis, Alton and Chicago RR. Co. (See MANUAL for 1884, page 664.) The Mississippi River Bridge Co. was absorbed on April 29, 1895. The Joliet and Chicago RR., the Kansas City, St. Louis and Chicago RR. and the Louisiana and Missouri River RR. are leased in perpetuity by this company on terms given in the statements for those roads. The Chicago and Alton RR., including the leased lines, is leased to the Chicago and Alton Ry. Co., for 99 years from April 3, 1900, at a rental equivalent to the surplus net earnings of the leased properties after deducting interest on this company's funded debt, rentals of its leased lines, and taxes (see lessor's statement, Sec. 6).

FINANCIAL STATEMENT.—This company has not published a balance sheet of later date than June 30, 1900, for which see MANUAL for 1901, page 663. At that date the capitalization of the company was as follows: Capital stock (common, $18,751,100; preferred, $3,479,500), $22,230,600; funded debt, $40,584,850—total, $62,815,450. The funded debt consisted of (1) $32,000,000 refunding gold 3s of Oct. 1, 1949; (2) $4,379,000 consol. gold 6s of July 1, 1903; (3) $1,663,000 sinking fund gold 6s of May 1, 1903; (4) $1,785,000 L. & M. R. 1st 7s of Aug. 1, 1900; (5) $300,000 L. & M. R. 2d 7s of Nov. 1, 1900; and (6) $457,000 M. R. Bridge 1st 6s of Oct. 1, 1912, guaranteed and assumed by the Chicago and Alton RR. Co. The refunding 3 p. c. bonds are secured on the entire corporate property and franchises of the company, subject to prior liens. The authorized issue is $40,000,000, but power is reserved in the mortgage to issue additional bonds, if duly authorized by three-quarters in interest of the stockholders, (a) for building, completing or acquiring extensions of the company's railroad—such additional issue not to exceed the rate of $20,000 per mile of main track, excluding sidings or switches, and to apply to not exceeding 500 miles of such additional main track; (b) for funding the rental obligations of the company upon its leased lines, and (c) for future betterments not exceeding $5,000,000, such issue to be at the rate of not exceeding $1,000,000 per annum, from and after Jan. 1, 1900. The mortgage securing the bonds will become an absolute first mortgage upon the payment of the underlying bonds of the company. From the proceeds of the refunding bonds outstanding an amount sufficient for the retirement of the underlying bonds has been deposited with the mortgage trustee. The unissued bonds are reserved for improvements, betterments, extensions, etc. In addition to being a direct mortgage lien on the property owned by the Chicago and Alton RR. Co., the refunding 3 p. c. bonds are also secured by deposit of the following bonds and stocks with the trustee under the mortgage: $3,000,000, being the entire issue, of 1st mtge. bonds of the Kansas City, St. Louis and Chicago RR. Co., subject to their pledge as security for the sinking fund 6 p. c. bonds; $989,300 out of $1,010,000 preferred stock, and $2,269,800 out of $2,312,700 common stock, of the Louisiana and Missouri River RR. Co.; $157,600 of the common stock (out of a total share capital of $2,021,800) of the Kansas City, St. Louis and Chicago RR. Co.; $300,000, being the entire capital stock, of the Mississippi River Bridge Co.; $138,000 out of $447,000 1st mtge. bonds of the Mississippi River Bridge Co.; $45,000 of the capital stock (out of a total of $495,000) of the Union Depot Co. of Kansas City; and $25,000 out of a total of $36,000 1st mtge. bonds of the Pawnee RR. Co. The consol. 6 p. c. sterling bonds (authorized £1,600,000, or $8,000,000) are secured on main line and Washington Branch, 323.30 miles. The preferred stock is entitled to preference for dividends up to the rate of 7 p. c. per annum, non-cumulative, and to share pro rata with common stock in any dividend in excess of 7 p. c. per annum on the entire capital stock.

BONDS RETIRED.—The L. & M. R. 1st and 2d mtge. bonds, and the C. & A. sinking fund 6s of May 1, 1903, were retired at maturity, and the C. & A. consol. 6s of July 1, 1923, were being retired when this part of the Manual was sent to press.

2. History.—Organized on June 6, 1859, to take title to the property of the Chicago, St. Paul and Fond du Lac RR. Co., which was sold under foreclosure on June 2, 1859. The railroad then extended from Chicago, Ill., to Fond du Lac, Wis., a distance of 177 miles. The system has been enlarged from time to time through the acquisition of other railroads or through extensions built chiefly by proprietary companies, all of whose stocks and bonds were owned by the Chicago and Northwestern Ry. Co. In the MANUAL for 1885, on pages 656-658, is a detailed history of the system brought down to the year 1885, and in subsequent editions later developments are recorded. (See MANUAL for 1902, page 314.)

Additional Mileage Constructed.—During the fiscal year ending May 31, 1902, the following new lines were completed and put in operation: Branch from Pelican to Crandon, Wis., 17.84 miles, opened Oct. 5, 1901; Princeton and Northwestern Ry., from Princeton to Marshfield, Wis., 85.69 miles, opened throughout Dec. 2, 1901; Red Granite Branch of Princeton and Northwestern Ry., 7.85 miles, opened Sept. 2, 1901; Nekoosa Branch of Princeton and Northwestern Ry., 6.88 miles, opened March 3, 1902; Peoria and Northwestern Ry., from Nelson to Peoria, Ill., 82.98 miles, opened Jan. 19, 1902. Upon the completion of its line to Peoria the company became a tenant of the Peoria and Pekin Union Ry. Co., thereby securing the use, jointly with other railways, of the extensive terminal and other facilities of the Peoria and Pekin Union Ry. Co. in the city of Peoria, including the joint use of the Union Passenger Depot and of the tracks to the various important industries in that city.

Acquisition of Sioux City and Pacific RR.—The Sioux City and Pacific RR. Co. was organized under the laws of the State of Iowa on Aug. 1, 1864, and was one of the so-called "Pacific Railroads" which received aid from the United States Government, in United States subsidy bonds issued under the Acts of Congress of July 1, 1862, and July 2, 1864. On June 20, 1901, the Chicago and Northwestern Ry. Co. purchased of the United States all the claims, rights and demands of the latter against the Sioux City and Pacific RR. Co., the consideration being $1,872,000 in cash and the surrender of $250,841.24 which had been earned by the Sioux City and Pacific RR. Co. in transportation service for the United States, but which had been retained on account of the indebtedness of the company. On Aug. 1, 1901, the Sioux City and Pacific RR. Co. issued its 1st mortgage 3½ p. c. gold bonds, maturing on Aug. 1, 1936, to the aggregate amount of $4,000,000, the proceeds of which were used in settlement of its indebtedness as follows: On account of the retirement of its 1st mortgage bonds of 1898, $1,628,000; on account of settlement of United States Government claims, $1,872,000; for cost of constructing an extension from Sargents Bluff to Moville, Ia., 20 miles, including cost of equipment, $500,000—total, $4,000,000. On Aug. 28, 1901, the Sioux City and Pacific RR. Co. sold and conveyed its railroad property (including the extension to Moville) to the Chicago and Northwestern Ry. Co., the latter assuming the $4,000,000 1st mortgage bonds and making them a part of its bonded indebtedness. The lines from Sioux City, Ia., to Fremont, Neb., and branch from California Junction to Missouri Valley, Ia., were taken over for operation by the Chicago and Northwestern Ry. Co. on Aug. 9, 1901, but on Sept. 1, 1901, the section from California Junction, Ia., to Fremont, Neb., 31.77 miles, was transferred by lease to the Fremont, Elkhorn and Missouri Valley RR. Co., that company also to have joint use of the line from California Junction to Missouri Valley, Ia. The newly-constructed branch of the Sioux City and Pacific RR., from Sargents Bluff to Moville, Ia., 20 miles, was opened for traffic on Nov. 25, 1901. Although the property of the Sioux City and Pacific RR. Co. has been purchased and its bonds assumed by the Chicago and Northwestern Ry. Co., there has been no merger of the two corporations. The Sioux City and Pacific RR. Co. still remains a distinct entity. Its preferred stock, of which $96,500 remains outstanding, and on which dividends at the rate of 7 p. c. per annum are paid, is included in the funded debt of the Chicago and Northwestern Ry. Co. (see Section 9).

Minnesota Western Ry.—Under the charter of the Minnesota Western Ry. Co. the construction of a line from Evan to Marshall, Minn., 45.82 miles, was commenced in Aug., 1901. At the annual meeting of the Chicago and Northwestern Ry. Co., held June 5, 1902, the officers of the company were authorized to acquire title to the Minnesota Western Ry. by a proper and sufficient conveyance. The road was completed and opened for traffic on Aug. 13, 1902. The cost of it to May 31, 1902, $497,353.64, was deducted from the surplus net earnings for the fiscal year, being included in the item "Appropriated for Construction, etc.," in Section 6.

Chicago, Iowa & Dakota Ry.—Late in 1901 the company purchased all the capital stock and all the bonds of the Chicago, Iowa and Dakota Ry. Co., taking possession of the property on Jan. 1, 1902. There has been no merger of the corporations, and the results from the operation of the Chicago, Iowa and Dakota Ry. are not included in this statement, although the road is operated by the Chicago and Northwestern Ry. Co. (see separate statement in Section 16).

De Pue, Ladd & Eastern RR.—The De Pue, Ladd and Eastern RR., extending from Seatonville to Ladd, Ill., a distance of 3.5 miles, was purchased by the Chicago and Northwestern Ry. Co. on July 1, 1902, and was taken over for operation on Oct. 16, 1902. It had been previously operated by the Chicago, Burlington and Quincy Ry. Co., as a switch to the coal mines of the Chicago, Wilmington and Vermilion Coal Co. at Seatonville, Ill. (see Manual for 1902, page 420).

Track Elevation in Chicago.—In compliance with the provisions of an ordinance passed by the Common Council of the city of Chicago on Jan. 13, 1902, the company has undertaken the elevation of its two main tracks on the Mayfair Cut-off between Chicago and Milwaukee avenues, a distance of 4.5 miles. These tracks are to be elevated to a height varying from 11.1 feet to 13.9 feet, and the work involves the construction of fifteen subways, which will result in the elimination of a like number of grade crossings.

Milwaukee Connection.—Under an agreement with the Chicago, Milwaukee & St.

Paul Ry. Co. a joint track has been constructed from this company's new terminal yard near Layton Park (a suburb of the city of Milwaukee), located on the Madison Division, to a connection with the La Crosse Division of the Chicago, Milwaukee & St. Paul Ry. This track is 1.74 miles in length and affords convenient access to industries located in the Menominee Valley west of the city of Milwaukee.

Interests in Other Railroads.—The Chicago and Northwestern Ry. Co. owns the entire capital stock of the Fremont, Elkhorn and Missouri Valley RR. Co. and a majority of the capital stock of the Chicago, St. Paul, Minneapolis and Omaha Ry. Co. At a special meeting of the stockholders and voting bondholders of the Chicago and Northwestern Ry. Co., held Feb. 10, 1903, it was voted to purchase the property and franchises of the Fremont, Elkhorn and Missouri Valley RR. Co. This has been done, and the Fremont, Elkhorn and Missouri Valley RR. is now operated as the Nebraska and Wyoming Division of the Chicago and Northwestern Ry.

4. Contracts and Agreements.—The company has contracts and agreements with other railroad companies, as follows: With the Chicago, Burlington and Quincy, securing to that company the joint use of the bridge over the Mississippi River at Clinton, Ia., at an annual rental of $20,000; with the company just named and the Chicago, Rock Island and Pacific, giving them joint use with this company of certain sidings in Council Bluffs, Ia.; with the Chicago, St. Paul, Minneapolis and Omaha, providing for joint running arrangements between Chicago and St. Paul, and division of earnings upon a *pro rata* per mile; with the Wisconsin, Minnesota and Pacific, granting that company the joint use of certain tracks and buildings in Zumbrota, Minn.; and with the Union Pacific RR. Co., the Southern Pacific Co., the Oregon Short Line RR. Co., and the Oregon RR. & Nav. Co., providing for the establishment of a through route between Chicago and the Pacific Coast.

9. Funded Debt.—Funded debt outstanding June 30, 1902, consisted of $145,000 1st gold 6s of Nov. 1, 1919, and $9,868,666.67 gen. gold 6s of Dec. 1, 1932. The 1st mtge. bonds have been cancelled by operation of the sinking fund, $118,000 of them on Nov. 1, 1902, and the remaining $27,000 on Jan. 1, 1903. The gen. mtge. bonds are provided with a sinking fund from Jan. 1, 1886, sufficient to discharge the bonds at 105 and interest, at which price they are redeemable by lot. The bonds are secured on the entire property of the company and also on the rentals from the lessees. The mortgage provides that the total rentals shall be at all times at least 20 p. c. in excess of the interest requirements. By operation of the sinking fund, $33,000 of the gen. mtge. bonds were taken up on March 1, 1903, and $62,000 on June 1, 1903.

10. Consolidated Mortgage Gold Bonds.—On July 1, 1902, the company executed a mortgage, covering its entire property, in favor of the Illinois Trust and Savings Bank of Chicago, as trustee, to secure an issue of $50,000,000 of consol. mtge. 4 p. c. 50-yr. gold bonds. Both principal and interest are payable in gold, free of all taxes, payments to be made in Chicago or in New York at the option of the bondholder. Bonds amounting to $18,369,000 will be issued at first, $4,000,000 of them for immediate use in track elevation and other permanent improvements and additions; $4,355,000 to repay the proprietary tenant companies and the Belt Ry. Co. of Chicago the par value of bonds of prior issues heretofore cancelled by the respective payments into the sinking fund, and $10,014,000 for the retirement at or before maturity of the $145,000 1st mtge. bonds and the $9,868,666.67 gen. mtge. bonds. Bonds of this issue to the amount of $8,195,000 were issued prior to July 1, 1903, for some of the purposes mentioned. The remaining $31,631,000 of the bonds (in excess of the $18,369,000 issue) may be issued from time to time, as set forth in the mortgage, under such conditions as will insure the ownership by the Chicago and Western Indiana RR. Co. of additional property of equal value to the amount of bonds issued, but only to an amount the interest on which shall have been provided for by the rentals payable under actually executed leases between the company and other railroad companies, and only when such leases shall have been properly assigned and transferred to the trustee as part of the security under the mortgage. The bonds are in coupon form, for $1,000 each, with provision for registration as to principal alone or as to principal and interest, and with provision for conversion into fully registered bonds of the denomination of $10,000.

Co. has become the owner in fee simple of the entire system east of the Missouri River and of all except the following mileage west of the Missouri River (this mileage is fully incorporated with the system, the C., B. & Q. PRESS NOTICES.

New York Evening Post.

We commend Mr. Poor's book, as it deserves, as a most convenient reference handbook concerning the history of silver money in the United States, the monetary history of other countries, and other matters of a similar nature, all of which are presented in compact and convenient shape, and fitted to the hand by an elaborate analytical index.

Philadelphia Ledger.

A timely and valuable book, which cannot be too carefully studied, and every line of which is full of warning and instruction.

New York Journal of Commerce.

A timely and valuable contribution to a subject now demanding the earnest attention of every thoughtful citizen. It will help to clear away much of the fog in which the whole question of the currency is now enveloped. It is in no sense partisan, and is addressed wholly to the reason and intelligence of the reader. It is indeed, as it is called, "A Handbook for the Times."

Boston Journal.

This volume is pungent and full of information. It is very fresh and suggestive, and contains a large amount of information which gives it value, and makes it stimulating and helpful in extending and directing financial discussion.

1. History.—Organized as Milwaukee and St. Paul Ry. Co., May 5, 1863; present name adopted Feb. 14, 1874. The steady growth of the system is recorded in previous numbers of the MANUAL, particularly those of 1888 and 1892. A branch from a point 3.4 miles west of Preston to Green Island, Ia., a distance of 11.9 miles, was completed and put in operation in October, 1901. The new line between Chicago and Kansas City, referred to in the MANUAL for 1902 on pages 339-340 was expected to be completed late in the spring of 1903. At the date of the annual report work was in progress on three additional lines—From Farmington to Mankato, Minn., 56 miles; from Zumbrota to Faribault, Minn., 35 miles; and from Eureka to Linton, N. D., 49 miles. On March 1, 1903, the extension to Linton was practically completed, the line to Mankato was completed, 36 miles, to Le Sueur, and construction was in progress on the Faribault line. The gauge of the line from Reno to Preston, Minn., was broadened to the standard during the past fiscal year, and that of the line from Wabasha to Zumbrota, Minn., was broadened to the standard after June 30, 1902, leaving in the whole system only the line from Bellevue to Cascade, Ia., of 3 ft. gauge.

Under a contract with the Northern Pacific Ry. Co. this company has the use of the Northern Pacific's St. Paul-Duluth line for the term of 99 years from Oct. 1, 1900. This company has made a traffic contract with the Union Pacific RR. Co. for through freight and passenger service from Chicago to the Pacific Coast, the agreement to remain in force until either party withdraws.

After June 30, 1902, the company purchased the Wisconsin Western RR., a line extending from La Farge to Wauzeka, Wis., a distance of 51.68 miles (see MANUAL for 1902, page 433).

2. Rolling Stock, June 30, 1902.—*Standard Gauge:* Locomotives, 946. Cars—passenger, 445; sleeping, 62; parlor, 19; dining, 10; baggage, mail, express and combination, 337; freight (box, 27,135; stock, 3,135; flat, coal, and ore, 7,060; refrigerator and vegetable, 1,237; ballast, 185), 38,752; service, 597—total, 40,222. *Narrow Gauge:* Locomotives, 7. Cars—passenger, 4; baggage, mail, express, and combination, 5; freight (box, 189; stock, 56; flat, 39), 284; caboose, 5—total, 298.

At the close of the fiscal year, June 30, 1902, there was a shortage of 237 cars (1 postal, 218 flat, 3 refrigerator, and 15 caboose), the amount to replace which, $113,350, is charged to operating expenses for the year and is shown at the credit of the account of "Replacement Fund—Cars" on the general balance sheet.

All the real estate, and nearly all of the property upon which the lines of railway have been built, are owned in fee.

4. Character of Business.—The business of the company is twofold. As a terminal company, it leases its freight and passenger facilities and its lands, tracks, and buildings for separate and joint occupancy, or for independent improvement if desired, the tenant paying (1) a fixed annual rental; (2) all taxes and maintenance of property used by it exclusively; (3) its wheelage proportion of all expenses for the maintenance of property used jointly; (4) its proportion of taxes on all property used jointly, and (5) its wheelage proportion of interest on the cost of all construction or alteration in the present facilities necessitated by legislative or municipal action. As a transfer company it employs its own motive power in conducting a regular transportation business and in transferring and switching freight cars between railway systems and manufacturing and business districts.

5. Tenants.—The principal railroad tenants now leasing terminal facilities and trackage are the Baltimore and Ohio RR. Co., the Chicago Great Western Ry. Co., the Chicago Junction Ry. Co., and the Suburban RR. Co. (Chicago Consolidated Traction Co.) Pending completion of station now being constructed, the Chicago, Rock Island and Pacific Ry. Co., the Lake Shore and Michigan Southern Ry. Co., and the New York, Chicago and St. Louis RR. Co. have used the Grand Central Passenger Station since Dec. 31, 1901.

9. Funded Debt.—The funded debt outstanding on May 31, 1903—total, $17,642,000, the increase of $920,000 over the amount as per general balance sheet representing 1st consol. mtge. bonds issued after the close of the fiscal year—consisted of the following issues (additional particulars will be found in the Ready Reference Bond List—see General Index):

$1,401,000 *C. & H. V. RR. 1st (extended) gold 4s of Oct.* 1, 1948. Secured on the line from Columbus to Athens, O., 76 miles, and on 41 miles of branches.

$2,500,000 *C. & T. RR. 1st 7s of Aug.* 1, 1905. Secured on the line from Columbus to Walbridge, O., 118 miles.

$1,584,000 *O. & W. Va. Ry. 1st 7s of May* 1, 1910. Secured on the line from Logan to Pomeroy, O., 83 miles.

$12,157,000 *H. V. Ry. 1st consol. gold 3½s of July* 1, 1999. Secured by a mortgage dated March 1, 1899, executed jointly by the Hocking Valley Ry. Co. and the Buckeye Coal and Ry. Co. to the Central Trust Co. of New York, as trustee, and conveying the entire properties of both companies, whether now owned or hereafter acquired, but subject to the liens of prior mortgages. The Buckeye Coal and Ry. Co. conveyed all its lands, aggregating about 10,000 acres in the counties of Hocking, Perry and Athens, in the State of Ohio. The mortgage provides that the Coal Co. shall pay the trustee two cents per ton on all coal mined from the lands of the Coal Co., to be used in purchasing bonds, if obtainable, at not over 105 p. c. and accrued interest, all bonds so purchased to be cancelled. All sums not so used within six months after their receipt by the trustee are to be returned to the Coal Co. The amount authorized is $20,000,000, of which a sufficient amount is reserved for the retirement of prior liens, the balance being issuable for the acquisition of new property and for betterments and enlargements, the property so acquired to be subject to the lien of the mortgage. The company reserves the right to extend any of the prior lien bonds rather than redeeming them by use of 1st consol. mtge. bonds. There are deposited with the trustee, as additional security for the 1st consol. mtge. bonds, $249,500 capital stock of the Buckeye Coal and Ry. Co., $255,000 capital stock and $300,000 1st mtge. bonds of the Wellston and Jackson Belt Ry. Co., $200,000 capital stock of the Boston Coal, Dock and Wharf Co., $199,900 capital stock and $1,461,000 1st mtge. bonds of the Ohio Land and Ry. Co., and $102,850 preferred stock and $154,530 common stock of the Sunday Creek Coal Co. (the par value of the Sunday Creek Coal Co.'s stock was reduced in Oct., 1902, from $100 per share to $10 per share, which accounts for the decrease in the amounts deposited as compared with last year's statement). The securities thus deposited are in each case the whole or a large majority of the issue. The Ohio Land and Ry. Co. is the owner of about 10,960 acres of coal lands in Athens, Hocking and Perry counties in Ohio.

10. Car Trust Bonds.—Series A is the outstanding balance of an issue of $1,750,000 floated in 1894. The bonds are retired by action of a sinking fund, under which one-tenth of them may be drawn each year at par and interest. The date of final maturity is April 1, 1904. Interest is at the rate of 6 p. c. per annum, payable on the 1st of Jan., April, July and Oct., at the Metropolitan Trust Co., New York, N. Y. The series of 1902 is dated May 1, 1902, principal and interest payable in semi-annual installments, covering a period of ten years, the date of final maturity being May 1, 1912. 2. Trackage and Traffic Contracts.—The branch of the Chicago, St. Louis and New Orleans RR. from Evansville to Hopkinsville includes 20.70 miles, from Princeton to Gracey, Ky., leased from the Louisville and Nashville RR. Co. at a rental of $12,039.70 per annum. The tracks of the Kansas City, Memphis and Birmingham RR. are used between Aberdeen, Miss., and Winfield, Ala., to connect the Canton, Aberdeen and Nashville RR. in Alabama with the Canton, Aberdeen and Nashville RR. The company has a contract with the Nashville, Chattanooga and St. Louis Ry. Co. for the interchange of freight and for the right of either company to run through passenger trains over the lines of the other without change. Under agreements with the Mobile and Ohio RR. Co., the single track railroads of that company and the Chicago, St. Louis and New Orleans RR. Co., which parallel each other from the Cairo Bridge southward for six miles, are used jointly by the two companies as a double track railroad, and the Mobile and Ohio RR. Co. has the right until 1930 to run its trains over the Cairo Bridge at a fixed minimum rent, with provision for increased rent as its use of the bridge grows. Entrance into Omaha, Neb., is secured under a contract with the Omaha Bridge and Terminal Ry. Co., which grants the use of that company's bridge over the Missouri River and of its terminals in Council Bluffs and in Omaha. The company also has the use of the new Union Passenger Station in Omaha, and of the tracks leading to it, under arrangements with the Union Pacific RR. Co.

3. History.—Chartered February 10, 1851; road opened throughout, 705.50 miles, Sept. 27, 1856. A record of progress of construction is in the MANUAL for 1889, page 440, and a sketch of the history of the company, from its organization to the close of the year 1896, is in the MANUAL for 1897, page 453 *et seq.* Later developments are recorded in subsequent editions of the MANUAL.

Additional Mileage Acquired.—Until about three years ago the Illinois Central RR. Co. was vested with the direct title to no more of the system than the 705.50 miles first built. The Litchfield Division, formerly a part of the St. Louis, Peoria and Northern Ry., was purchased as of Oct. 1, 1900, and at about the same time the company acquired the ownership of the Indiana division of the former Peoria, Decatur and Evansville Ry., extending from State Line to Evansville with branch to New Harmony, together 37.66 miles. The Evansville and Mattoon RR., from State Line to Mattoon, Ill., 97.27 miles, which also was formerly a division of the Peoria, Decatur and Evansville Ry., was acquired by deed in or about Oct., 1901. At the close of the year ending June 30, 1902, by reason of these acquisitions, the Illinois Central RR. Co. held the direct ownership of 938.02 miles of road, as shown in Section 1a. The consideration paid for the Litchfield Division was $3,000,000 in 3 p. c. bonds secured by mortgage upon the property. The cost of it is included in cost of railroad and equipment as per general balance sheet. The cost of the line from Mattoon to Evansville and of the New Harmony Branch is not included in that item in the general balance sheet of June 30, 1902, but in the amount advanced on account of the Peoria Division as shown in Section 12.

Further Acquisitions Authorized.—The rest of the system, although practically owned, is operated under leases from the several companies named in Section 1a. In order to simplify the organization by diminishing the number of subsidiary corporations, the acquisition of the following railroads was authorized at the annual meeting of the stockholders, held Oct. 15, 1902: Chicago, Madison and Northern RR., 231.30 miles; the Kankakee and Southwestern RR., 131.26 miles; Chicago and Springfield RR., 111.47 miles; St. Louis, Alton and Terre Haute RR., 239.04 miles; Chicago, Havana and Western RR., 131.62 miles; Rantoul RR., 74.43 miles; the Mound City Ry., 2.87 miles; Chicago and Texas RR., 78.70 miles; Illinois and Indiana RR., 88.51 miles; and Riverside and Harlem RR., 2.17 miles.

The Riverside and Harlem RR. extends from Parkway to a connection with the Wisconsin Central RR. in Cook County, Ill. It had not been put in operation on June 30, 1902. The cost of it to that date, advanced by the Illinois Central RR. Co., amounted to $204,329.43.

Leased Lines.—As stated before, the Illinois Central RR. Co. practically owns the entire system which it operates. Only in the Peoria, Decatur and Mattoon RR. Co., the Dubuque and Sioux City RR. Co., the Hodgenville and Elizabethtown Ry. Co. and the Troy and Tiptonville RR. Co. may there be said to be minority interests not controlled by the Illinois Central RR. Co. For this reason separate statements are not published in the MANUAL for any of the leased lines except the four named (see Sec. 15.) As the affairs of the subordinate companies are wholly controlled by the Illinois Central RR. Co., and as that company refuses to furnish any information other than that contained in its annual reports, recourse has been had to the reports of the several State Boards for much of the information given in Section 15.

On December 3, 1901, the Kentucky Western Ry., from Blackford to Dixon, Ky., was bought for account of the Chicago, St. Louis and New Orleans RR. Co., the consideration being $300,000 in 3½ per cent. Louisville Division bonds. On the 19th of the same month the Illinois Central RR. Co. exercised the option acquired with the lease of the Cecilia Branch from the Louisville and Nashville RR. Co., to purchase that branch for $1,000,000. Title was taken in the name of the Chicago, St. Louis and New Orleans RR. Co., and that company has issued its obligation to the Illinois Central RR. Co. for the money thus advanced. When certain bonds of the Louisville and Nashville RR. Co., which are secured by mortgage upon the Cecilia Branch, shall have been retired, and the mortgage securing them discharged, it is expected that the obligation of the Chicago, St. Louis and New Orleans RR. Co. will be liquidated by the issue of $1,112,000 Louisville Division bonds reserved for that purpose.

Advances on Account of Other Railroads.—As shown in detail in Section 14, the amount advanced on account of other railroads down to June 30, 1902, was $6,814,088.75. The advances made during the year amounted to $193,199.48. These sums represent cash advanced, without including interest, or any allowance for the transportation of materials over the Illinois Central RR., or for the use of its equipment. The sum of $67,936.58 has been advanced on account of the construction of the *St. Louis and Ohio River RR.*, designed to extend from Grantsburg to Golconda on the Ohio River, a distance of about 18 miles. This railroad lies wholly in Illinois, and is estimated to cost $300,000. Advances amounting to $15,634.10 have also been made for the construction of the *Mounds and Olive Branch RR.* This line will be 20.5 miles long, extending from Mounds to Olive Branch, Ill., and is estimated to cost $485,614. At Olive Branch connection will be made with the Chicago and Eastern Illinois RR., and a contract has been made for the joint use of 9 miles of that road, from Olive Branch to Thebes, Ill.

A statement showing the amount of capital stock outstanding at the close of each fiscal year from the time the original shares became fully paid, until June 30, 1897, together with the amounts and rates per cent. of dividends paid in every such year, is in the MANUAL for 1898, page 470.

Secured upon that mileage there are outstanding $2,800,000 ($3,000,000 auth.) 1st mtge. 7 p. c. 48-yr. $500 and $1,000 bonds, issued by the old Iowa Falls and Sioux City RR. 1. History.—Chartered in 1846, and purchased from the State of Michigan the road from Detroit to Kalamazoo, 144 miles. The extension to Kensington was put in operation in May, 1852. (See MANUAL for 1893, page 816.) At Kensington connection is made with the Illinois Central RR., and 14 miles of that line are used to reach Chicago. For terms under which the leased and operated lines were acquired, see the statements for the several companies appended. The New York Central and Hudson River RR. Co. owns about 86 p. c. of the capital stock of this company (see MANUAL for 1898, page 528). The railroad forms part of the New York Central system, but is operated as an independent organization.

The original charter of this company was repealed by an act of the Michigan Legislature in extra session, 1900. The company, therefore, resolved to surrender its charter and to incorporate under the general railroad law. This was accordingly done, and certificate of such surrender and incorporation was filed Dec. 30, 1901.

TWENTY-TWO YEARS OF PROTECTION.

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second, the Period of the attempted Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period, of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature,—a return to the Protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—"Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

quired by purchase under the laws of Michigan, subject to the mortgages and other liens existing on them at the time of the purchase, the company issuing in payment for such properties all of its common and preferred stock. The company also acquired the Grand Rapids, Belding and Saginaw RR., from Belding to Freeport, Mich., 28 miles, by purchase of its entire capital stock (see Sec. 8a). The Saginaw, Tuscola and Huron RR. has been formally merged into the Pere Marquette RR., its property having been conveyed by deed dated May 7, 1903.

On January 20, 1903, the Pere Marquette Railroad Company purchased the *Lake Erie and Detroit River Railway* for $2,870,000, issuing in payment therefor its collateral trust 20-year bonds of Jan. 1, 1923, bearing interest at the rate of 3 per cent. for the first three years, and 4 per cent. thereafter. The bonds are secured by deposit of the entire capital stock of the L. E. & D. R. Ry. Co. They are subject to redemption on any interest day after sixty days' notice. The L. E. & D. R. Ry. extends from Port Huron and Windsor to St. Thomas, with branches to Port Stanley and Rond Eau, on Lake Erie, and to London, all in the Province of Ontario, and having a total of 230 miles. From St. Thomas to Buffalo the traffic of the company will be carried under an agreement with one of the existing lines.

Under a contract entered into between this company and the *Bessemer and Lake Erie RR. Co.* (owned by the United States Steel Corporation), the *Marquette and Bessemer Dock and Navigation Co.* was organized under the laws of New Jersey in Feb., 1903, and has acquired all the property of the *United States and Ontario Steam Navigation Co.* The capital stock of the Marquette and Bessemer Dock and Navigation Co., consisting of 2,500 shares, is owned equally by the Pere Marquette RR. Co. and the Bessemer and Lake Erie RR. Co. The property is operated under a contract for preferential interchange of business for a period of 99 years, the Pere Marquette RR. Co. using it for its Pittsburgh business, and the *United States Steel Corporation* for its trans-Lake Erie traffic and for preferential interchange with the Pere Marquette RR. The Pere Marquette RR. Co. is now extending its line to Porter, Ind., where connection will be made with the Elgin, Joliet and Eastern RR., also owned by the United States Steel Corporation, thus constituting with the Pere Marquette RR. and the Marquette and Bessemer fleet a through line connection between the two properties. The Marquette and Bessemer Dock and Navigation Co. has issued $400,000 of 4½ per cent. 30-yr. gold bonds, which are guaranteed, jointly and severally, by the Pere Marquette RR. Co. and the Bessemer and Lake Erie RR. Co.

The outstanding capital stock and securities of the *South Haven and Eastern RR. Co.* and of the *Milwaukee, Benton Harbor and Columbus Ry. Co.* were purchased by this company on April 1, 1903. The companies named will be absorbed by this company as soon as proper action can be taken by the stockholders.

The common stock is entitled to all dividends in each fiscal year after payment of 4 p. c. dividends in that year on preferred. All the preferred and common stock (except fifty shares of common stock to qualify directors) is deposited in a voting trust for five years, the following being the voting trustees: Frederic P. Olcott, Thomas H. Hubbard, and William A. Read. C. Operated under Joint Trackage Arrangements (details in Sec. 1a)	436.5 "
Total length of lines operated, June 30, 1902	2,483.0 miles.

Side and double tracks (owned, 673.4 m.; leased, 20.3 m.; operated, 246.2 m.), 939.9 miles. Gauge, 4 ft. 8½ in. Rail (steel), 60, 63, 70, and 80 lbs.

2. History.—Consolidation July 29, 1889, of the Wabash Western Ry. Co. and the Wabash Ry. Co., corporations organized to take over, respectively, the lines west and those east of the Mississippi River formerly embraced in the Wabash, St. Louis and Pacific System (see Manual for 1890, page 735).

Additional Mileage Acquired.—The Detroit-Chicago line was opened on May 4, 1893; the Detroit-Buffalo line on June 14, 1897; and the St. Louis-Des Moines line on Nov. 26, 1899. The Kansas City, Excelsior Springs and Northern Ry., 9.5 miles, was purchased as of April 1, 1901.

Omaha Division.—The Omaha and St. Louis RR., from Pattonsburg, Mo., to Council Bluffs, Ia., 143.7 miles, was purchased at foreclosure sale on Oct. 12, 1901. It was originally a division of the Wabash, St. Louis and Pacific, but upon the disintegration of that system it was reorganized independently. Under the terms of purchase the Wabash RR. Co. executed a mortgage to secure bonds for $3,500,000 to be issued upon the property, $500,000 of which bonds are to be appropriated to equipment and betterments. The line was taken over for operation on Nov. 1, 1901.

Toledo-Chicago Division.—The extension of the Detroit-Chicago Division from Montpelier to Maumee, O., 49.5 miles, and the branch from Butler to New Haven, Ind., 25.7 miles, were completed in Jan. and Feb., 1902. The cost of these lines was met by an issue of $3,000,000 Toledo and Chicago Division bonds described in Section 9. The Butler-New Haven Branch was built under the charter of the Fort Wayne and Detroit RR. Co. to replace the Eel River RR., the lease of which expired on Dec. 31, 1901.

Peru and Detroit Ry.—In consequence of the lease of the Eel River RR. being annulled, the operation of the Peru and Detroit Ry., a connecting link between the Eel River RR. and the main line of the Wabash RR., was also discontinued on Dec. 31, 1901 (see statement for Peru and Detroit Ry. in Section 11).

Purchase of Boone County and Boonville RR.—The Columbia and St. Louis RR. Co., organized Jan. 3, 1902, acquired title to the Boone County and Boonville RR. on May 1, 1902, and on May 9, 1902, deeded the property to the Wabash RR. Co. The Columbia and St. Louis RR. There had been issued $834,000 1st gold 5s of May 1, 1939, and the following, aggregating $1,095,000, had been retired: $522,000 St. Charles Bridge 1st mtge. bonds, $149,500 St. Charles Bridge 2d mtge. bonds, $27,000 Chicago Extension bonds, $100,000 equipment 1st lien bonds, $156,000 St. Louis, Council Bluffs and Omaha RR. bonds, $100,000 Boone County and Booneville RR. bonds and $40,500 Brunswick and Chillicothe RR. bonds.

St. Charles Bridge Bonds.—Secured in the order of their priority on the bridge over the Missouri River at St. Charles, Mo.

First Mortgage Gold Bonds.—Secured by first mortgage on 1,008.6 miles of railroad east of the Mississippi River (Toledo to East Hannibal, 460.5 m.; Bluffs to Camp Point, 39.4 m.; Clayton to Elvaston, 34.5 m.; Decatur to East St. Louis, 110.1 m.; C. & W. I. Junction to Effingham, 205.4 m.; Shumway to Altamont, 9.5 m.; Fairbury Junction to Streator, 30.9 m.; Edwardsville to Edwardsville Crossing, 8.5 m.; Delray to Butler, 109.8 m.) and also secured on 533.6 miles of railroad west of the Missouri River (Tayon Ave., St. Louis, to Harlem, 274.8 m.; Carr St., St. Louis, to Ferguson, 10.7 m.; Moberly to Ottumwa, 131.5 m.; Salisbury to Glasgow, 15.4 m.; Brunswick to Pattonsburg, 79.6 m.; Centralia to Columbia, 21.6 m.), but subject, as to these lines west of the Missouri River, to the liens of the two St. Charles Bridge mortgages and of the mortgages securing the bonds of the Brunswick and Chillicothe RR. Co., St. Louis, Council Bluffs and Omaha RR. Co. and Columbia and St. Louis RR. Co. Also secured on the leasehold interests of the company in the terminals at Detroit, Chicago, Hannibal, Quincy and Kansas City, and in the bridges at Hannibal, St. Louis and Kansas City. Bonds to a sufficient amount are reserved to retire at maturity, or whenever exchanges can be made upon the terms which may be prescribed by the Board of Directors, the mortgages on the property west of the Missouri River that were executed prior to 1889.

Second Mortgage Gold Bonds.—Secured on the same lines (1,008.6 miles) east of the Mississippi River as are covered by the first mortgage, together with the leasehold interest in the terminals at Detroit, Chicago, Hannibal, and Quincy and in the bridge at Hannibal.

Debenture Mortgage Bonds.—Secured by a lien subsequent to that of the 1st mtge. bonds on the property west of the Mississippi River, and subsequent to that of the 2d mtge. bonds on the property east of the Mississippi River, acquired in the reorganization of 1889, but not secured on any property acquired since the reorganization. The bonds are in two classes—Series A (for $3,500,000) having preference for interest only over Series B (for $26,500,000), interest on either issue, however, being payable only if earned and non-cumulative. Any bonds of Series B not presented for redemption on the date of their maturity will draw interest until the principal is paid on demand. The bonds may be voted at stockholders' meeting at the rate of one vote to every $100 of bonds.

Detroit and Chicago Extension Gold Bonds.—Secured by first mortgage on the Chicago Extension, from Montpelier, O., to Clarke Junction, Ind., 149.6 miles, and the interest on them is charged on that extension. There is provision for a sinking fund of up to 2 p. c. per annum out of the net earnings of the line (accounts will be kept separate) for redemption of the bonds at 110.

Toledo and Chicago Division Gold Bonds.—Secured by first mortgage on the line from Montpelier to Maumee, O., 49.5 miles, on the branch from Butler to New Haven, Ind., 25.7 miles, and on rolling stock purchased with the proceeds of $1,000,000 of the bonds, and by second mortgage on the Detroit and Chicago Extension, 149.6 miles.

Omaha Division Gold Bonds.—Secured by first mortgage on the line from Pattonsburg, Mo., to Council Bluffs, Ia., 143.7 miles. The authorized issue is $3,500,000, the $500,000 of unissued bonds being reserved for the acquisition of additional terminal property and equipment, and for the betterment of the property covered by the mortgage.

Des Moines Division Gold Bonds.—In addition to being a first lien on the line from Moulton to Des Moines these bonds are further secured by the deposit with the trustee of 20,000 shares of the capital stock of the Des Moines and St. Louis RR. Co. and of the Moulton, Albia and Des Moines RR. Co., the owners of the line mentioned; also by deposit of $50,000 of the capital stock of the Des Moines Union Ry. Co. and the contracts respecting the Wabash RR. Co.'s rights in the use of the terminal facilities of that company in Des Moines. The mortgage will be a first lien upon the road between Hannibal and Quincy, known as the Hannibal and Quincy RR., if this line be built with the proceeds of the bonds reserved for that purpose, it being provided in the mortgage that in case the Wabash RR. Co. should not construct the said line of railroad from East Hannibal to Quincy, but in lieu thereof should arrange for use of the line of road now owned by the C., B. & Q. RR. between said points, by lease for a period of ten years or more, then and in that case the amount, namely, $200,000, held in reserve by the trustee, shall be cancelled and destroyed and the amount of the Des Moines Division mortgage be limited to $1,600,000.

Equipment Sinking Fund First Lien Gold Bonds.—Secured on 40 locomotives, 48 passenger and combination cars, 3,000 box cars, and 500 coal cars. An agreement between the company and the trustee requires that $100,000 of the bonds shall be redeemed each March 1 from 1903 to 1906, $150,000 each year from March 1, 1907, to 1916, and $200,000 each year from March 1, 1917, to 1921. Under the sinking fund provision of the agreement the company has the right to deliver the required amount of bonds annually to the trustee for cancellation, or to pay to the trustee a sufficient amount in cash to take up the required number of bonds at 108 p. c. and accrued interest. In the latter event if the trustee cannot buy the required amount of bonds at 105 p. c. and interest or less, the company has the right to elect whether the amount of the sinking fund so paid to the trustee shall be used in the purchase of new equipment (to be covered by the agreement), or used in drawing the required number of bonds by lot at 108 p. c. and interest.

Kansas City, Excelsior Springs and Northern RR. Gold Bonds.—Secured by first mortgage on the branch from Excelsior Springs Junction to Milwaukee Junction, Mo., 9.5 miles. Assumed by the Wabash RR. Co. on purchasing that line.

Columbia and St. Louis RR. Gold Bonds.—Secured on the line from Centralia to Columbia, Mo., 21.6 miles. The authorized issue is $300,000, of which $100,000 were issued in May, 1902, to take up the capital stock of the Boone County and Booneville RR. Co., and $100,000 in May, 1903, to take up the $100,000 1st mtge. bonds of the same company; the remaining $100,000 are reserved for improvements and additional equipment.

St. Louis, Council Bluffs and Omaha RR. Bonds.—Secured by first mortgage on the road from Chillicothe to Pattonsburg, Mo., 41.4 miles. The bonds are included in the funded debt of the Wabash RR. Co., per general balance sheet, and the interest on them is guaranteed under the lease.

Boone County and Booneville RR. Bonds.—The bonds were retired at maturity.

Brunswick and Chillicothe RR. Bonds.—Secured by first mortgage on the road from Brunswick to Chillicothe, Mo., 38.2 miles. The bonds are included in the funded debt of the Wabash RR. Co., per general balance sheet, and the interest on them is guaranteed under the lease.

Twenty-Two Years of Protection

(SEPTEMBER, 1888.)

By HENRY V. POOR.

Pp. 222. 8vo. Paper. Price, 50 cents.

PREFACE.

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second the Period of the attempted Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature—a return to the Protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—"Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

8. Capital Stock.—The preferred stock is entitled to receive, or have set apart for it, a non-cumulative dividend, if declared, to the extent of 4 p. c. per annum, payable out of the surplus net earnings each fiscal year before any dividend for such year shall be paid on the common stock, and without deduction for any taxes which the company may be required at any time to pay or retain therefrom. In any year in which 4 p. c. dividend shall have been declared on behalf of common and preferred stock, all shares, whether common or preferred, shall participate equally in any further dividends for such year. Whenever, for two successive years, dividends on the preferred stock at the rate of 4 p. c. per annum shall not have been earned and paid in cash, said preferred stock shall thereafter have the right to elect a majority of the board of directors of the company.

The preferred stock cannot be increased beyond $12,500,000 par value, except after obtaining the consent of the holders of at least a majority of the whole amount of the preferred stock, given at a meeting of the stockholders called for that purpose, and also the consent of the holders of a majority of such part of the common stock as shall be represented at such meeting.

Voting power is vested in five voting trustees, under an agreement dated July 13, 1899, in pursuance of which the stocks will be held by such trustees until July 1, 1904, although it may be distributed at any earlier date at their discretion. Until such distribution is made, voting trust certificates will be issued, entitling the registered holders to any dividends that may be declared on the shares.

9. Funded Debt.—The funded debt outstanding on June 30, 1902—total, $26,869,500, as per general balance sheet—consisted of the following issues of bonds (additional particulars will be found in the Ready Reference Bond List—see General Index):

$23,884,000 1*st gen. gold* 4*s of July* 1, 1949, secured upon the property acquired in the reorganization, subject only to the liens of the Wisconsin Central 1st series bonds, the Chicago, Wisconsin and Minnesota 1st mtge. bonds and the Milwaukee and Lake Winnebago 1st mtge. bonds on the properties covered by those issues, to the lien of $3,885 of real estate mortgages on a part of the Manitowoc Terminal property, and to some mortgages given to secure bonds of the Chicago, Milwaukee and St. Paul Ry. Co. on the half interest in the 14.37 miles of road between Hilbert Junction and Menasha, Wis., purchased from that company. All other bonds of the several constituent companies of the Wisconsin Central System have been acquired by the company and deposited with the trustee under this mortgage as muniments of title. The authorized issue of 1st gen. mtge. bonds is $27,000,000, of which $24,640,000 have been issued, $756,000 thereof having been retired by action of sinking fund. Of the $2,360,000 of unissued bonds, $2,245,000 are reserved for the retirement of the three outstanding issues of prior lien bonds, and $115,000 are available for improvements, equipment, etc.

$660,500 *Wisconsin Central RR.* 1*st series gold* 5*s of Jan.* 1, 1909. Secured by first mortgage on the Wisconsin Central RR. (see MANUAL for 1899, page 363). The proceeds of land sales are applicable to the purchase of these bonds, but there can be no drawings.

$604,000 *Milwaukee and Lake Winnebago RR.* 1*st gold* 6*s of July* 1, 1912. Secured on the line from Schleisingerville, Neenah, Wis., and on the section of the Manitowoc Division between Neenah and Menasha.

$776,000 *Chicago, Wisconsin and Minnesota RR.* 1*st gold* 6*s of March* 1, 1916. Secured on the line from Central Avenue, Chicago, to Schleisingerville, Wis., 114.67 miles.

$500,000 *Minneapolis Terminal purchase money gold* 3½*s of Jan.* 1, 1950. Secured on terminals at Minneapolis, Minn. The bonds are subject to call for redemption on or after Jan. 1, 1910, at 105 p. c. and accrued interest.

$445,000 *Marshfield and Southeastern Division purchase money gold* 4*s of May* 1, 1951. Secured on the line from Marshfield to Nekoosa, Wis., 32.61 miles.

10. Sinking Fund.—When the first series of bonds of the Wisconsin Central RR. Co. have all been retired and the mortgage under which they were issued, dated Jan. 1, 1879, shall have been discharged of record, all moneys arising from the sales of lands belonging to the land grant shall be received by the trustees of the Wisconsin Central Ry. Co.'s mortgage, and the surplus thereof remaining, after deducting the expense of the trust in respect thereof and of the management, settlement and sale of said land, and after repayment to the railway company for its outlays for taxes, assessments, advertising charges, betterments and other proper expenses incurred by it in connection with said lands, or to promote the sale thereof, shall be invested by the trustees in purchasing bonds secured by the mortgage of the Wisconsin Central Ry. Co. whenever such bonds can be purchased at a price not exceeding par and accrued interest. If such purchase cannot be effected within three months after the receipt of such proceeds the trustees shall, if the railway company requests, purchase said bonds at any higher price fixed by the company, but if the railway company does not so request, such proceeds shall be paid to the railway company when and as called for by resolution of its Board of Directors, approved by a majority of all members, specifying that such proceeds are to be used for the improvement, betterment, enlargement, equipment or extension of the railroads or property covered by the mortgage or additions thereto, specifying the particular purpose for which these proceeds are to be used.

There was in the Land Grant Sinking Fund on June 30, 1901, $400,142.47; there was paid into this fund during the year, $244,450; interest on deposits during year, $4,946.10, making a total amount available, $649,538.57. Paid during the year for expenses of administering the trust, $6,494.52; amount invested by trustees, $642,885.87; balance on hand June 30, 1902, $158.18. The trustees expended during the year $642,885.87 in the purchase and retirement of 593 first series bonds of the Wisconsin Central RR. Co., all but four of which were purchased from the trustees of the 1st general mortgage. The amount received by the sinking fund trustees under the 1st general mortgage for the 589 first series bonds thus disposed of, together with $37,858.44 which still remained in the so-called collateral trust of Sept. 14, 1893, were applied to the purchase in open market of $756,000 1st gen. mtge. bonds, which have been cancelled and destroyed.

11. Equipment Trust Agreement.—During the last half of the fiscal year ending June 30, 1902, the company contracted for 10 locomotives, 300 box cars, 100 stock cars, 25 refrigerator cars, 3 postal cars, 5 passenger coaches, 2 chair cars, 4 composite cars, 2 baggage cars and 4 wrecking cranes, all of which have since been delivered. The cost of this equipment and of the 10 locomotives purchased of the Brooks Locomotive Works (see general balance sheet) amounted to $738,458.84, of which $138,458.84 was paid in cash after June 30, 1902. Payment of the remaining $600,000 has been secured by an equipment trust agreement with the Metropolitan Trust Co. of New York covering the above equipment. The trust is dated July 1, 1902, and requires the company to pay $60,000 annually for ten years, with interest at the rate of 5 p. c. per annum, payable semi-annually, on deferred payments.

stock of the Beaumont Wharf and Terminal Co., Gulf, Beaumont and Kansas City Ry. Co., Gulf, Beaumont and Great Northern Ry. Co. and Prescott and Eastern RR. Co. The Kansas Southwestern Ry., the Leavenworth and Topeka Ry., and the Sunset RR. are operated by their own organizations, and the statements for them will be found elsewhere in the MANUAL (see GENERAL INDEX); the operations of the other companies named are controlled by The Atchison, Topeka and Santa Fe Ry. Co., and the statements for those companies are subjoined hereto.

San Francisco Terminals.—Freight terminals in San Francisco are supplied by the Santa Fe Terminal Co., of California, all of whose capital stock is owned by The Atchison, Topeka and Santa Fe Ry. Co. By virtue of a contract with the Harbor Commissioners of San Francisco, approved by the Legislature, a lease has been made for 50 years of a tract of partially submerged land known as ''China Basin,'' containing about 35 acres. The conditions of the lease are that, in addition to a nominal rental, the Terminal Company shall build a sea-wall and reclaim the land from the tide. There have also been purchased by the Santa Fe Terminal Co. certain lots south of and adjoining "China Basin," containing about 17 acres. In order to obtain material for the work of reclamation it has been found advisable to purchase additional real estate in San Francisco to the value of upward of $400,000. The cost of improvements on the water front is estimated at $750,000. The work of filling "China Basin" is progressing satisfactorily. Considerable use has been made of this property for switching and distributing purposes, though much remains to be done to bring the entire yard up to grade. When completed the terminals in San Francisco, in addition to those used at present, will consist of about 52 acres on the water front with total water frontage of 3,811 feet, together with about 46 acres located slightly inland, which latter may be sold or used for railway purposes as may be deemed advisable.

3. History.—Incorporated under the laws of Kansas, Dec. 12, 1895, as successor to the Atchison, Topeka and Santa Fe RR. Co., whose property was sold under foreclosure on Dec. 10, 1895. (See MANUAL for 1898, page 276.) Possession was taken on Jan. 1, 1896. The company then acquired the fee simple of the line from Atchison to the western boundary of the State of Kansas, 470.41 miles, and the securities representing the ownership of the rest of the system. Since then conveyances have been executed from time to time vesting in the company the fee simple of various other properties as follows: Mississippi River RR. and Toll Bridge, 0.61 mile; Sibley Bridge, 0.76 mile; Wichita and Western Ry., 79.77 miles; Kansas City, Topeka and Western RR., 66.04 miles; Leavenworth, Northern and Southern Ry., 45.41 miles; Southern Kansas Ry., 834.06 miles; New Mexico and Southern Pacific RR., 371.76 miles; Rio Grande, Mexico and Pacific RR., 185.14 miles; New Mexican RR., 52.47 miles; Silver City, Deming and Pacific RR., 46.50 miles; Burlingame and Northwestern Ry., 34.30 miles; Silver City and Northern RR., 14.53 miles; Hutchinson and Southern Ry., 142.29 miles; Kansas and Southeastern RR., 9.07 miles; Santa Rita RR., 4.28 miles; Hanover RR., 6.66 miles; Denver and Santa Fe Ry., 116.33 miles; Pueblo and Arkansas Valley RR., 290.13 miles; Blackwell and Southern Ry., 15.94 miles; St. Joseph, St. Louis and Santa Fe Ry., 76.45 miles; Chicago, Santa Fe and California Ry., 491.09 miles; Kansas, Oklahoma Central and Southwestern Ry., 56.85 miles; Kansas City, Emporia and Southern Ry., 83.23 miles; Florence, El Dorado and Walnut Valley RR., 72.73 miles; Marion and McPherson Ry., 98.21 miles; Wichita and Southwestern Ry., 115.18 miles; Chicago, Kansas and Western RR., 887.24 miles; San Francisco and San Joaquin Valley Ry., 372.48 miles; and Atchison, Topeka and Santa Fe RR. in Chicago, 6.43 miles. The general and adjustment mortgages of The Atchison, Topeka and Santa Fe Ry. Co. have been duly recorded and have become a direct lien on all of the properties named. The bonds and stocks of the several absorbed companies, therefore, are no longer listed on the statement of securities pledged as collateral security for the funded debt.

4. *Lien of Funded Debt.*—The absolute title to 5,044.56 miles of railroad, together with all the company's equipment and the terminal properties in Chicago, is now vested in The Atchison, Topeka and Santa Fe Ry. Co., and the general mortgage and adjustment mortgage are direct liens thereon. The general mortgage is a first lien upon all this property except parts of the Chicago and Panhandle Divisions, which are subject to outstanding divisional bonds amounting to $2,324,000 in the aggregate, and The San Francisco and San Joaquin Valley Line, which was recently conveyed to The Atchison, Topeka and Santa Fe Ry. Co., subject to a mortgage for $6,000,000. Under an Act of Congress recently obtained it is proposed at an early day to cause the Santa Fe Pacific RR. to be conveyed to The Atchison, Topeka and Santa Fe Ry. Co., and this property thereupon will also become subject to the general mortgage and adjustment mortgage as first and second mortgages respectively.

5. *Purchase of Petroleum Property.*—Having become satisfied that petroleum is to be the fuel of the Pacific Coast, and realizing the necessity of an adequate supply, this company purchased the entire capital stock of the Petroleum Development Company of California, which controls about 1,500 acres in the "Kern River" petroleum field. About 500 acres are "proven" oil-bearing land, estimated by experts to contain oil enough to supply fuel for the "Atchison" lines from San Francisco to Seligman, Ariz. (831.68 miles), as well as floating equipment in San Francisco Bay, for about one hundred years at the present rate of consumption, with every reason to suppose that the remaining 1,000 acres will also be oil bearing. An ample supply of cheap fuel is thus assured for the future.

7. *Extensions Under Way or Projected.*—About 250 miles of line are under construction in Eastern Oklahoma, under the charter of the *Eastern Oklahoma Ry. Co.* The line will extend from Kildare, Okla., to Pauls Valley, Ind. T., passing through an excellent agricultural region. As the grade will be but 31.7 feet to the mile, the extension will form part of a through line to the south more favorable to economic operation than the present main line. On May 1, 1903, there had been completed 112 miles, and 72 miles additional were under construction. Bonds amounting to $5,645,000, secured by first mortgage on the road, have been issued to meet the cost of the work (see Sec. 16). Under the charter of the Bradshaw Mountain RR. Co. a line is being constructed from Mayer Station to Crowned King Mine, Ariz., about 27 miles, with a branch from Huron, Ariz., to or near the head of Big Bug Creek, about 8 miles; on May 1, 1903, the road was practically finished. It will be operated under lease by the Santa Fe, Prescott and Phoenix Ry. Co. The Kiowa, Chickasha and Fort Smith Ry. Co. was incorporated in Kansas, July 13, 1899, to build a line from Kiowa, Kan., in a southeasterly direction through Kansas, Oklahoma and Indian Territory to Fort Smith, Ark., a distance of about 450 miles. The Atchison, Topeka and Santa Fe Ry. Co. owns practically the whole capital stock of the company. The Eastern Ry. Co. of New Mexico, incorporated Oct. 30, 1902, in the interest of The Atchison, Topeka and Santa Fe Ry. Co., proposes to build in New Mexico a line from Rio Puerco, on the Santa Fe Pacific RR., to Texico, on the Pecos Valley and Northeastern Ry., about 265 miles, with two branches aggregating about 120 miles—a total of 385 miles.

The preferred stock is entitled to 5 p. c. non-cumulative dividends out of the net profits, and to the par amount of it out of assets in case of dissolution or liquidation of the company, in priority to common stock. It is provided that no mortgages other than the general and adjustment mortgages shall be executed by the company, nor shall the amount of preferred stock be increased without the consent of a majority of the whole amount of preferred stock outstanding, given at a meeting called for that purpose, and the consent of the holders of a majority of such part of the common stock as shall be represented at such a meeting.

15. Funded Debt.—The funded debt, as per General Balance Sheet, consisted of $138,728,500 of gen. mtge. bonds, $51,728,000 of adjustment mtge. bonds, $30,000,000 of serial debentures, $1,500,000 of Chicago and St. Louis Ry. bonds, $6,000,000 of the S. F. & S. J. V. Ry. bonds, and $828,810 of miscellaneous bonds—a total of $228,785,310; but this included $2,475,000 of gen. mtge. bonds, and $382,000 of adjustment mtge. bonds held in the treasury of the company. The following is a statement of the outstanding funded debt on July 1, 1902 (total, $225,923,500), including the outstanding bonds of the Hutchinson and Southern Ry Co., but not including treasury assets:

$1,500,000 *Chicago and St. Louis Ry. 1st 6s of March* 1, 1915. Secured on the line from Corwith to Pekin, Ill., 147.7 miles.

$629,000 *Chicago, Santa Fe and California Ry. 1st gold 5s of Jan.* 1, 1937. Secured on the lines from Corwith, Ill., to Big Blue Junction, Mo., 439.94 miles, and from Ancona to Pekin, Ill. (less 5.91 miles of trackage between Streator Junc. and Pekin Junc., Ill.), 52.4 miles. The Chicago and St. Louis Ry. bonds underlie these on the line from Corwith via Ancona to Pekin, Ill., 147.7 miles. The total amount of these bonds is $15,350,000, but The Atchison, Topeka and Santa Fe Ry. Co. owns and has deposited as security for its gen. mtge. bonds $14,721,000 thereof.

$195,000 *Hutchinson and Southern Ry. 1st gold 5s of Jan.* 1, 1928. Secured on the line from Hutchinson, Kan., to Cross, O. T., 142.29 miles. The total issue amounts to $719,000, but The Atchison, Topeka and Santa Fe Ry. Co. owns $524,000 thereof. The bonds are subject to redemption on any interest day after Jan. 1, 1908, at 105 p. c. and accrued interest.

$6,000,000 *San Francisco and San Joaquin Valley Ry. 1st gold 5s of Oct.* 1, 1940. Secured on the lines from Bakersfield to San Francisco, Cal., and from Calwa to Corcoran Junction, Cal., a total of 372.57 miles. There is a sinking fund of 1 p. c. of net profits from Jan. 1, 1916, to 1921; 2 p. c. to 1926; 3 p. c. to 1931; 4 p. c. to 1936; and 5 p. c. to 1940. The bonds may be drawn at 110 p. c. after 1915.

$136,253,500 *gen. gold 4s of Oct.* 1, 1995. Secured on the entire property of the company, whether now owned or hereafter acquired, but subject to the mortgages or deeds of trust securing the bonds described in the preceding four paragraphs. They are also secured by collateral lien upon the rest of the Atchison System, the bonds and stocks of the subsidiary companies being deposited with the trustee under this mortgage, as shown in Sec. 20. The total amount authorized by the mortgage is $165,490,500, the bonds unissued on July 1, 1902, being reserved for the retirement of prior liens, for the acquisition and improvement of other railroads and for new construction, betterments, additional rolling stock, etc. (See MANUAL for 1900, page 463.)

$51,346,000 *adjustment gold 4s of July* 1, 1995. Secured on the same property as the gen. mtge. bonds, but subject to the lien thereof. Originally interest was payable yearly, on the 1st of Nov. if earned, but under an agreement dated Sept. 14, 1899, interest is now payable in half yearly installments upon complying with the terms of said agreement. Since July 1, 1900, interest has been cumulative at the rate of 4 p. c. a year. In the mortgage securing these bonds provision is made for the issue of $20,000,000 of bonds in addition to the $51,728,000 outstanding, after the $30,000,000 of gen. mtge. bonds reserved for improvements, etc. (of which $14,500,471 remained unissued on July 1, 1901), shall have been issued and used; but such additional adjustment bonds can be issued only with the consent of the holders of a majority of all adjustment bonds outstanding. Such additional adjustment bonds are reserved under carefully guarded restrictions, so that they can be used only for improvements in the same manner as the $30,000,000 gen. mtge. bonds, and so that they can be issued at a rate not exceeding $2,000,000 per annum, of which amount $500,000 per annum may be for the construction of branches and extensions.

$30,000,000 *serial debenture gold 4s of Feb.* 1, 1903, 1914, divided into twelve series, designated Series A to Series L, each series amounting to $2,500,000. One series, beginning with "A" is payable on each 1st of Feb., from 1903 to 1914, and each of them is subject to redemption on any interest day at 105 p. c. and accrued interest. Series A was retired on Feb 1, 1903. The company covenants that it will not execute any new mortgage upon any of the lines of railway now owned by it, except by way of further security for bonds issued under existing mortgages, unless by the terms of such new mortgage it shall be provided that all of said debentures then outstanding shall be included in the debt secured by such new mortgage.

16. Eastern Oklahoma Division Bonds.—To cover the cost of the lines building or to be built under the charter of the Eastern Oklahoma Ry. Co. (see Sec. 6) $5,645,000 of The Atchison, Topeka and Santa Fe Ry. Co.'s Eastern Oklahoma Division 25-year 4 p. c. 1st mtge. gold bonds have been issued. The mortgage is dated Feb. 26, 1903, and is in favor of the Guaranty Trust Co. of New York, trustee. The bonds mature March 1, 1928, and the interest on them is payable March 1 and Sept. 1. The authorized issue is $10,000,000.

The mortgage covers, as a direct first lien, all lines of railway and branch lines now owned by The Eastern Oklahoma Ry. Co. or that hereafter may be constructed or acquired by it, including the following described lines of railway, of the aggregate length of 282.25 miles: From Newkirk to Pauls Valley, Ind. T., 183.57 miles; from Guthrie Junction to Esau, Okla., 77.90 miles; from Ripley to Cushing, Okla., 10.18 miles; and from Seward to Cashion, Okla., 10.60 miles. All the stock of The Eastern Oklahoma Ry. Co., except the qualifying shares of directors, is owned by The Atchison, Topeka & Santa Fe Ry. Co. The latter undertook the construction of the above-described lines of railway and provided the entire cost thereof. The Eastern Oklahoma Ry. Co., in consideration thereof, became indebted to the Atchison Company in the sum of $5,645,000, being the amount of the bonds now issued, which indebtedness to The Atchison Company was discharged through the execution by The Eastern Oklahoma Ry. Co. of the mortgage for the benefit and security of the holders of the bonds. The unissued $4,355,000 of the total authorized issue of the bonds can be issued and can be certified by the trustee under the mortgage only from time to time, at a rate not exceeding $20,000 per mile for each mile of railway, in addition to said 282.25 miles, that shall be constructed or otherwise acquired by The Eastern Oklahoma Ry. Co., and upon which the mortgage shall become a first lien.

7. Capital Stock.—The general balance sheet shows the authorized capital stock and (in "General Assets") the amount of each class owned by the company. The preferred stock, in order of priority, is entitled to dividends at the rate of 4 p. c. per annum, non-cumulative, before any dividends can be paid on the common stock. The company reserves the right to redeem its preferred stock at any time at par in cash, if allowed by law. It is provided that no additional mortgage shall be put upon the property embraced in the first mortgage of 1899, nor the amount of the 1st preferred stock be increased, except with the consent in each instance of the holders of a majority of the whole amount of 1st preferred stock, given at a meeting of the stockholders called for that purpose. During the existence of the voting trust, the voting trustees shall not vote on the 1st preferred stock for the purposes indicated without the consent of holders of the like amount of that class of beneficial certificates.

8. Voting Trust.—All of the capital stock, except 50 shares of the common stock, is held by Grenville M. Dodge, Frederic P. Olcott, Harry Walters, Henry Budge and J. Kennedy Tod as voting trustees under an agreement dated Dec. 31, 1898, and to endure until Jan. 1, 1904, or for such further period as may elapse before the 1st preferred stock shall have received a 4 p. c. cash dividend for three consecutive years, although the voting trustees may, in their discretion, deliver the stock at any earlier date. Until delivery of stock is made the voting trustees will issue certificates of beneficial interest entitling the holders to their shares at the termination of the voting trust and to any dividends that may be declared in the meantime.

9. **Funded Debt.**—The funded debt consists of 1st gold 4s of Feb. 1, 1929. The authorized issue is $20,000,000, the unissued bonds being reserved for additions, improvements and betterments, and for new construction or acquisitions, including the acquisition of coal properties. These bonds, except such of them as shall be used for the acquisition of coal properties, are to be issued at a rate not exceeding $300,000 per annum. The mortgage covers the entire property of the company, including future acquisitions, but subject, as to these, to any liens thereon at the time of acquisition, and to purchase money liens created in such acquisition. It is provided in the mortgage that the Cheyenne and Northern line (from Cheyenne to Orin Junction, Wyo., 153.68 miles) may be sold and the proceeds applied toward the reduction of the first mortgage indebtedness. Additional particulars respecting the funded debt will be found in the Ready Reference Bond List—see General Index.

4. History.—Organized July 14, 1886, as successor to the Denver and Rio Grande Ry. Co. (see Manual for 1891, page 691). The Rio Grande Junction Ry. was built jointly by this company and the Colorado Midland Ry. Co. It is leased, and its bonds are guaranteed jointly by the two companies. In Nov., 1890, a through standard-gauge route was opened between Denver and Ogden over this road, the Rio Grande Junction Ry. and the Rio Grande Western Ry.

Rio Grande Western Ry.—At a special meeting of the stockholders, held on May 15, 1901, authority was voted for the purchase of the Rio Grande Western Ry., and for the issuing of $20,750,000 of preferred stock for that purpose. The purchase was completed during the year ending June 30, 1902, and although there has not been a formal consolidation of the two corporations, they are treated as one in the report of the Denver and Rio Grande RR. Co., and the publication of a separate report in respect of the Rio Grande Western Ry. Co. has been discontinued. For this reason the separate statement for the Rio Grande Western Ry. Co. has been practically eliminated from the Manual (see Section 14), and this statement has been made to conform to the report of the Denver and Rio Grande RR. Co.

Proprietary Railroads.—The proprietary railroads named in Section 1 are controlled absolutely by the Denver and Rio Grande RR. Co. or by the Rio Grande Western Ry. Co., but because their separate corporate existence is nominally maintained short statements for them will be found in Section 14.

Rio Grande Sangre de Cristo RR. Co.—The Crestone Branch, from Moffat to Crestone and to Cottonwood, Col., 16.96 miles, was built under the charter of the Rio Grande Sangre de Cristo RR. Co. It was completed Aug. 21, 1901, and has been operated by the Denver and Rio Grande Co. since that date. The San Luis Valley Land and Mining Co. furnished all the necessary labor and materials (except rails and fastenings, which were furnished by the Denver and Rio Grande RR. Co.), and will be reimbursed for its outlay by monthly payments based on the earnings from traffic over, and to and from, the branch. The cost of the rails and fastenings furnished by the Denver and Rio Grande RR. Co. has been charged to the Rio Grande Sangre de Cristo RR. Co., and the monthly reimbursements to the San Luis Valley Land and Mining Co. are also being charged to the same company.

Rio Grande RR. Co.—Under the charter of this company a line known as the North Fork Branch has been constructed from Delta to Paonia, Col., 43.09 miles. It was completed late in 1902 and has been purchased and absorbed by the Denver and Rio Grande RR. Co. The purchase price was met by an issue of $850,000 1st consol. mtge. 4 per cent. bonds of Jan. 1, 1936.

Castle Valley Cut-off.—The construction of the Castle Valley Cut-off on the Rio Grande Western Ry. was commenced in the spring of 1902. At the close of the fiscal year ending June 30, 1902, the surveys and location had been completed and a contract let for 21 miles of grading. The cut-off will extend from Farnham on the main line to Salina on the Marysvale Branch, a distance of 113 miles, and when completed will afford a route 38 miles shorter than the present one to Southwestern Utah. Important coal fields in the vicinity of Salina Cañon and in contiguous districts can be opened up and the coal made available for commercial use. The construction of the cut-off will be prosecuted from time to time according to the requirements of the various classes of traffic which it is believed can be developed in the territory to be traversed.

MONEY AND ITS LAWS:

EMBRACING

A HISTORY OF MONETARY THEORIES

AND

A HISTORY OF THE CURRENCIES

OF THE

UNITED STATES.

By HENRY V. POOR.

Poor's Railroad Manual Co., 68 William St., New York.

1 vol., royal octavo, cloth, pp. xl., 623.
Price, $5.00.

Sent, free of postage, upon receipt of price, by the publishers, and for sale by all booksellers.

Of the excellence and completeness of the work the publishers present the following testimonial:

"The undersigned, having carefully examined the work recently published by Mr. HENRY V. POOR upon the subject of MONEY, hereby express their conviction that he has unfolded its NATURE and LAWS with an amplitude and clearness which have all the force of demonstration. His assumption of treating money as a subject coming within the range of the exact sciences has been well sustained. The application of the principles laid down in the first part of his work cannot fail to restore order in the place of the chaos of opinion which now prevails, and to point out, unmistakably, the conditions necessary to a restoration of the currency of the country to the standard of coin. We commend the work to the public as an able, scholarly, painstaking, and exhaustive treatise upon a subject in which is involved, more than in any other now engaging their attention, the welfare of the people of the United States."

PRESS NOTICES.

New York Evening Post.

We commend Mr. Poor's book, as it deserves, as a most convenient reference handbook concerning the history of silver money in the United States, the monetary history of other countries, and other matters of a similar nature, all of which are presented in compact and convenient shape, and fitted to the hand by an elaborate analytical index.

Philadelphia Ledger.

A timely and valuable book, which cannot be too carefully studied, and every line of which is full of warning and instruction.

New York Journal of Commerce.

A timely and valuable contribution to a subject now demanding the earnest attention of every thoughtful citizen. It will help to clear away much of the fog in which the whole question of the currency is now enveloped. It is in no sense partisan, and is addressed wholly to the reason and intelligence of the reader. It is indeed, as it is called, "A Handbook for the Times."

Boston Journal.

This volume is pungent and full of information. It is very fresh and suggestive, and contains a large amount of information which gives it value, and makes it stimulating and helpful in extending and directing financial discussion.

Of these bonds $10,000,000 were outstanding on June 30, 1902, and $2,276,600 were held in the treasury; $2,200,000 of the treasury bonds have been sold since the close of the fiscal year to reimburse the company for capital expenditures made out of its income, leaving only $76,600 now in the treasury. Further issues of bonds secured by the same mortgage may be made for the following purposes: At not exceeding the rate of $20,000 per mile for the construction or acquisition of additional lines of railroad; $2,000,000 at not exceeding the rate of $500,000 a year (unless the written consent of the owners of at least two-thirds of the capital stock shall be obtained for the issuing of a greater amount) for the further development of the property; and $15,200,000 for the retirement of the 1st trust mtge. bonds. The bonds are secured on the entire property of the Rio Grande Western Ry. Co., but subject in lien to the 1st trust mtge. bonds, and they are additionally secured by deposit of all the stock and all the bonds of the Tintic Range and the Sevier Ry. Cos., and of all the stock of the Utah Central RR. Co., Utah Eastern Ry. Co. and Utah Fuel Co. (see Sec. 11). At present the bonds are secured by first mortgage on the Provo Cañon Branch, from Provo to a connection with the Utah Eastern Ry., 11.1 miles, on 0.37 miles of the Pleasant Valley Branch, and on 4.22 miles of spurs. The company reserves the right to retire the whole issue, but not any part of it, on any interest day at par and accrued interest, after six months' notice.

The Kansas City, Eldorado and Southern Ry., 14 miles, was purchased on Oct. 24, 1899, and the Kansas City and Pacific Ry., 130.06 miles, previously leased, was absorbed by consolidation on Nov. 24, 1899. 3. M., K. & T. Ry. Co. of Texas.—The Missouri, Kansas and Texas Ry. Co. of Texas (see statement therefor, Section 15), was organized on Oct. 28, 1891, under the laws of the State of Texas, to acquire title to the railroads owned by the Missouri, Kansas and Texas Ry. Co. within that State. An extension from Smithville to Lockhart, Tex., 37 miles, connecting the Lockhart-San Marcos Branch with the main line, was completed Dec. 1, 1892, and an extension of the main line from Boggy Tank to Houston, 84 miles, was completed April 10, 1893. At about the same time the company acquired the Sherman Branch, built under the charter of Sherman, Denison and Dallas Ry. Co. The extension from San Marcos to San Antonio, Tex., 45.6 miles, was completed and put in operation on May 3, 1901. The Sherman, Shreveport and Southern Ry. 1. The railroads embraced in this system on Dec. 31, 1902, and whose single track mileage aggregated 6,002.49, were as follows:

Missouri Pacific Ry	3,486.60 miles.
Central Branch Ry	388.19 "
St. Louis, Iron Mountain and Southern Ry	1,773.77 "
*Arkansas Central RR	46.50 "
*Arkansas and Louisiana Ry	25.54 "
*Arkansas Midland RR	47.45 "

*Little Rock and Hot Springs Western RR	56.80 "
*Mississippi River, Hamburg and Western Ry	38.91 "
*New Orleans and Northwestern Ry	115.76 "

While the railroads indicated by an asterisk (*) in the preceding statement are controlled through ownership of all or a large majority of their capital stock, they are operated separately by their own organizations, and their statistics are not included in the report of the Missouri Pacific Ry. Co. The system represented by the capital stock of the Missouri Pacific Ry. Co., and whose operations are included in that company's report, consists of the Missouri Pacific Ry., with its branches and leased lines, the Central Branch Ry., and the St. Louis, Iron Mountain and Southern Ry.; the aggregate length thereof being 5,648.56 miles, and the average operated during the year ending Dec. 31, 1902, 5,613.46. Included in the 5,648.56 miles are 76.67 miles of trackage rights in railroads outside of the system, deducting which leaves 5,571.89 miles actually represented by the capital stock of the Missouri Pacific Ry. Co. The following statement shows the track mileage of the lines whose length is included in this total:

Surplus of current resources and uncapitalized new property over all current and deferred liabilities, $2,532,725.75. Car trust and equipment notes outstanding, payable at various dates until 1912, $5,291,508.60.

The current resources have been drawn upon liberally during the past few years to meet payments for new mileage, equipment and real estate, for which capital funds had not been provided, and resulted in a small unfunded debt, as shown above, but since Jan. 1, 1903, the date of closing the books, arrangements have been completed for furnishing the necessary funds to reimburse the treasury for a large portion of these capital expenditures, and also to provide for all new property and mileage now under contract, by the sale of $20,000,000 River and Gulf Divisions 1st mtge. bonds of the St. Louis, Iron Mountain and Southern Ry. Co., and by the sale of available gen. consol. 5 p. c. bonds and unifying and refunding 4 p. c. bonds of the same company. The amount to be covered into the treasury from these sources for bonds already sold against property and mileage acquired and paid from current resources, will amount to over $4,000,000.

The various car trust and equipment notes outstanding are not in the nature of current liabilities, as their maturities are so arranged that the added income to the system from the use of the equipment should provide the necessary funds to pay the notes.

5. River and Gulf Divisions First Mortgage.—On Feb. 26, 1902, the directors of the St. Louis, Iron Mountain and Southern Ry. Co. provided for an issue of $50,000,000 of 4 per cent. 30-year bonds, of which $20,000,000 have been appropriated and sold for the following purposes:

1. To purchase additional terminal properties in St. Louis and East St. Louis, including freight transfer facilities across the Mississippi River immediately south of the City of St. Louis.

2. To purchase a railroad now built from East St. Louis to Thebes, Ill., with a branch to the Big Muddy Coal Fields, aggregating about 145 miles.

3. To extend the present Iron Mountain System from Batesville, Ark., to Carthage, Mo., and build branches in connection therewith, 254 miles.

4. To extend the Iron Mountain System along the Mississippi River Valley from West Memphis, Ark., to a connection with a low grade line of the Texas & Pacific Railway Co., at Clayton, La.—278 miles.

All of the above 677 miles of railroad is to be built according to modern practices, with low grades, heavy rails, thoroughly ballasted and adapted to economical operation. This new mileage is required for two purposes—to handle expeditiously and economically the large volume of existing traffic of the Iron Mountain System and avoid double tracking of a large portion of the existing main lines, which would otherwise be necessary; and to establish new through or main lines which will materially add to the volume of traffic and earning capacity of the System.

The balance of the bonds secured by the mortgage are to be issued only under carefully restricted provisions of the mortgage, and the proceeds appropriated for building or acquiring other mileage at actual cost, not exceeding in any event $30,000 of bonds per mile of completed main line railroad, and for actual cost of additional terminals, equipment, double tracks or other property in connection with or necessary to the development of the mortgaged property.

The mortgage constitutes a first and only lien upon the mileage and other property above specified, and bonds are reserved to complete a System extending from St. Louis along the east side of the Mississippi River to the bridge now being built at Thebes, Ill., and on the west side of the river, via West Memphis, to a connection with the Texas & Pacific Ry. at Clayton, La., and by means of this connection completing a Valley Railroad System extending from St. Louis to New Orleans, which is 48 miles shorter than the existing System, having maximum grades of 3-10ths of 1 p. c. as against several sections of existing system reaching as high as 2 p. c. The mortgage will also constitute a first and only lien upon a diagonal line from the above described Valley Line near West Memphis, via the White River Valley, to a connection with the Missouri Pacific System at Carthage, Mo., and by this connection completing a low grade line from Kansas City to Memphis of about 480 miles.

The company has acquired all of the bonds of the Memphis Union Belt Ry. Co., which owns a belt line around Memphis, reaching important industries and occupying an important strategic location with valuable franchises, and these bonds will be deposited with the Trustee of the River and Gulf Divisions Mortgage as additional security therefor. Additional particulars respecting the River and Gulf Divisions bonds will be found on page 518, in the statement for the St. Louis, Iron Mountain and Southern Ry. Co.

Olive, Ark., 41.67 miles from White River Junction; grading has been completed to Devero, Ark., 69.13 miles from White River Junction, and about 90 p. c. of the remaining grade is finished. There was expended account this line during previous year, $226,320.30, which, with the expenditure of $1,299,613.27 in 1902, makes total cost, as far as completed, $1,525,933.57.

El Dorado and Bastrop Ry., Louisiana State line to El Dorado, Ark., distance, 44.00 miles, track laid to the Ouachita River, 7.50 miles, and about 65 p. c. of remainder of the line is graded. Total expenditure, $244,625.35.

Mississippi River, Hamburg and Western Ry., extension from Hamburg to Crossett, Ark., distance 12.40 miles, was completed during the year at a cost of $136,333.99.

Carthage and Western Ry., from a connection with the Lexington & Southern Division north of Carthage, to a connection with the Kansas City Southern Railway at Asbury, Mo., distance 17.96 miles. About 90 p. c. of the first ten miles out of Carthage is graded; work on the remainder commenced at several points during the last part of Dec. Total amount expended, $132,070.22.

Pfeiffer Quarry Spur, from a point on the White River Branch near Batesville, Ark., to stone quarries, distance 5.00 miles; about 60 p. c. of the work has been completed at a cost of $3,529.83.

Webb City Spurs and Extensions, from Scotland to Mear's Mines, Mo., distance 16.86 miles, was completed during the year at a cost of $212,791.92.

Jefferson City, Boonville and Lexington Branch, from Cole Junction, Mo., near Jefferson City, to Boonville, Mo., distance 41.39 miles, completed during the year at a cost of $308,341.90, which added to the expenditure of $954,503.83 incurred in 1901, makes a total cost of $1,262,845.73.

Lake City Branch, Lake City to Rock Creek, Mo., distance 7.76 miles, was completed during 1902. There was $108,057.08 expended on this line in 1901, which with $78,917.61 expended in 1902, makes total cost $186,974.69.

Yates Center Branch, for the purpose of dispensing with a long bend in the main line and decreasing grade from 1 p. c. to 0.6 p. c. maximum, a detour 8.6 miles in length is under construction at Yates Center, Kan., which will also reduce the distance 2.4 miles as compared with the present line. Total cost, as far as completed, $102,195.80.

The line from Jefferson City to Boonville, Mo., and the Lake City Branch were opened for traffic about July 1, 1902; and 41.67 miles of the White River Ry. is also being operated. 2. History.—Incorporated Oct. 21, 1876, and took over the property of the Pacific RR. Co. of Missouri, which had been sold under foreclosure Sept. 6, 1876. Consolidated Aug. 11, 1880, with the St. Louis and Lexington RR., Kansas City and Eastern RR., Lexington and Southern RR., St. Louis, Kansas and Arizona RR., Missouri River RR. and Leavenworth, Atchison and Northwestern RR. (see MANUAL for 1891, page 784). The accounts of the Kansas City Northwestern RR. Co. and of the Sedalia Warsaw and Southwestern Ry. Co. were consolidated with those of the Missouri Pacific Ry. Co. as of Jan. 1, 1901. Trackage rights from Pittsburg, Kan., to Joplin, Mo., 26.54 miles, were acquired of the Kansas City Southern Ry. Co. on July 24, 1900. The extension of the Jefferson City, Boonville and Lexington Branch, from Boonville to Cole Junction, Mo., 41.39 miles, and the Lake City Branch, from Lake Junction, Mo., to a connection with the Atchison, Topeka and Santa Fe Ry., 7.76 miles, were opened for operation on June 3, 1902, and the contract for trackage rights in the Atchison, Topeka and Santa Fe Ry., from Eton to Congo, Mo., 7.82 miles, went into effect on the same day. The Webb City Extension, from Oronogo to Granby, Mo., 24.29 miles, was opened for operation on July 28, 1902.

Proprietary and Controlled Roads.—The proprietary railroads are practically owned by the Missouri Pacific Ry. Co. and are fully incorporated into the system. The actual aggregate mileage of them is 2,136.20 miles, including the length of the Verdigris Valley Division of the Kansas and Colorado Pacific Ry., 80.62 miles, which is shown as a leased line in the mileage statement, the Missouri Pacific Ry. Co. being obliged to pay the interest on its bonds by way of rental. The Missouri Pacific Ry. Co. controls the St. Louis, Iron Mountain and Southern Ry. Co., and Central Branch Ry. Co., through the ownership of all or of a large majority of their capital stocks. For information respecting those companies, reference should be made to the separate statements therefor. The company also has large holdings in the shares of the Denver and Rio Grande Ry. Co. and of the Texas and Pacific Ry. Co., friendly interests controlling the remaining shares.

2. History.—Consolidation, May 6, 1874, of the St. Louis and Iron Mountain RR. Co., the Arkansas Branch RR. Co., the Cairo and Fulton RR. Co. and the Cairo, Arkansas and Texas RR. Co. (See MANUAL for 1899, page 806.) The proprietary roads are practically owned by the company, and are fully incorporated with its railroad. The company owns all the securities of the Kansas and Arkansas Valley Ry. Co., 99.7 p. c. of the capital stock of the Little Rock and Fort Smith Ry. Co., and 89¼ p. c. of the capital stock of the Little Rock Junction Ry. Co. The securities of the Iron Mountain RR. Co. of Memphis are owned by The Missouri Pacific Ry. Co.

River and Gulf Divisions.—After the close of the fiscal year the company absorbed the St. Louis Valley Ry. Co., the White River Ry. Co., the Memphis, Helena and Louisiana Ry. Co., and the Memphis, Helena and Louisiana RR. Co. The St. Louis Valley Ry. Co. (see MANUAL for 1902, page 1515) owned a railroad from East St. Louis to Thebes, Ill., from Fordyce, Ill., to the Big Muddy Coal Fields and two short branches in St. Clair County, Ill., a total of 152.2 miles of road, besides terminal and ferry properties at St. Louis, East St. Louis and Thebes. The White River Ry. is under construction from Batesville, Ark., to Carthage, Mo., a distance of 248 miles; and the Memphis, Helena and Louisiana roads are under construction from West Memphis, Ark., to Clayton, La., a distance of 274 miles. This company purposes to construct an extension of the White River line from Batesville to West Memphis, and to build connecting links between the St. Louis Valley line and the Memphis, Helena and Louisiana roads. To pay for the lines acquired, and to provide for the construction or acquisition of extensions and branches, and for betterments, equipment, etc., a mortgage has been executed to secure an aggregate of $50,000,000 bonds secured by first mortgage on the properties acquired or to be acquired with their proceeds (see Sec. 9a). Upon the completion of the work now in progress or in contemplation a new and short line will be formed from St. Louis, along the east side of the Mississippi River, to the bridge now being built at Thebes, Ill., and on the west side of the river, via West Memphis, to a connection with the Texas and Pacific Ry. at Clayton, La.; and a diagonal line will be formed from West Memphis, via the White River Valley, to a connection with the Missouri Pacific Ry. at Carthage, Mo. The former will shorten the distance between St. Louis and New Orleans and the latter the distance between Kansas City and Memphis.

The St. L., I. M. & S. Ry. Co. owns more than 99.9 p. c. of the capital stock and all the bonds of the Arkansas and Louisiana Ry. Co., more than 99 p. c. of the capital stock of the Arkansas Midland RR. Co., all the capital stock of the Little Rock, Hot Springs and Western RR. Co., all the capital stock and all the bonds of the Mississippi River, Hamburg and Western Ry. Co., and about 93 p. c. of the capital stock and 80 p. c. of the bonds of the New Orleans and Northwestern Ry. Co. The properties of those companies are operated separately by their own organizations, and separate statements for them will be found elsewhere in the MANUAL (see GENERAL INDEX).

2. History.—Chartered May 5, 1897, and on June 23, 1897, acquired all the capital stock and all the first mortgage bonds of the New Mexico Fuel Co. Under agreements executed Oct. 21, 1897, and Dec. 1, 1897, the company constructed and equipped the road from El Paso, Tex., to the coal fields at Capitan, N. M., 164.32 miles, receiving in consideration of such construction and equipment all the capital stock and all the 1st mortgage bonds of the El Paso and Northeastern Ry. Co. and all the capital stock (no bonds issued) of the El Paso and Northeastern RR. Co. To meet the cost of the work, and to provide funds for building and equipping the mines of the New Mexico Fuel Co., at Capitan, the company issued its 1st mortgage bonds to the amount of $3,000,000, secured by deed of trust of all the securities of the El Paso and Northeastern RR. Co., El Paso and Northeastern Ry. Co., and New Mexico Fuel Co. The work of construction was commenced in Dec., 1897, and the railroad was completed from El Paso, Tex., to Alamogordo, N. M., 86 miles, in July, 1898. The extension from Alamogordo to Capitan, and the mines at Capitan, were completed and opened for business on Oct. 1, 1899.

3. Controlled Roads.—The company owns all the capital stock of the Alamogordo and Sacramento Mountain Ry. Co., and 60 p. c. of the capital stock of the El Paso and Rock Island Ry. Co., and guarantees the bonds of those companies, both as to principal and interest. The railroads of both companies were constructed by the New Mexico Ry. and Coal Co., under agreements providing that in consideration of such construction it should receive, in the case of the Alamogordo and Sacramento Mountain Ry., all the capital stock of the road and bonds at the rate of $12,000 per mile, and in the case of the El Paso and Rock Island Ry. Co. all the capital stock and all the bonds. The company sold the bonds of both roads, and gave to the purchasers of the El Paso and Rock Island bonds a bonus of 40 p. c. in the capital stock of the same road. The Alamogordo and Sacramento Mountain Ry. extends from Alamogordo, N. M., to the summit of the Sacramento Mountains. It was completed in Nov., 1898. The El Paso and Rock Island Ry. was completed Feb. 1, 1902. It connects at Santa Rosa with the Chicago, Rock Island and El Paso Ry., an extension of the Chicago, Rock Island and Pacific System, and completes a through line from El Paso to Kansas City and Chicago. An agreement has been made between the New Mexico Ry. and Coal Co. and the Chicago, Rock Island and Pacific Ry. Co. for an interchange of traffic, on an equitable mileage basis, for the period of 999 years.

4. Dawson Ry. and Coal Co.—This company was organized in June, 1901, with a capital stock of $3,000,000 and an issue of $3,000,000 1st mortgage bonds, to acquire (through its subordinate companies, the Dawson Ry. Co. and the Dawson Fuel Co.) about 25,000 acres of coal lands near Dawson, N. M., and to build a railroad therefrom to a point on the Chicago, Rock Island and El Paso Ry., at Tucumcari, N. M., a distance of about 135 miles. The New Mexico Ry. and Coal Co. made an agreement with the Dawson Ry. and Coal Co. to open and equip the mines, build and equip the railroad, and to guarantee payment of the principal and interest of the Dawson Ry. and Coal Co.'s bonds, in consideration of receiving all the stock and bonds of the Dawson Ry. and Coal Co. The bonds have been sold, with a bonus to the purchasers of 49 per cent. in the capital stock, the other 51 per cent. of the capital stock remaining in the treasury of the New Mexico Ry. and Coal Co. The coal lands have been paid for in full, and the mines placed in condition for working. The construction of the railroad was practically completed at the date of the annual report, and it was expected that it and the fuel property would be in full operation by July 1, 1903. An equitable traffic agreement was concluded Oct. 1, 1901, between the New Mexico Ry. and Coal Co. and the Chicago, Rock Island and Pacific Ry. Co., covering the interchange of traffic between the railroads.

5. Rolling Stock, Dec. 31, 1902.—Locomotives, 56. Cars—passenger, 17; freight (box, 215; flat, 25; coal, 595; caboose, 18; tank, 23), 876—total, 893.

6. Operations.—As the New Mexico Ry. and Coal Co. owns outright all the stocks and bonds of the El Paso and Northeastern RR. Co., El Paso and Northeastern Ry. Co., and New Mexico Fuel Co., it is entitled to and receives all the net earnings of those companies. The following statement shows the results from operation for three fiscal periods ending June 30, 1899-1901, and for 18 months ending Dec. 31, 1902:

Total length of lines operated in the system, June 30, 1902	3,414.24 miles.

Of the total of 3,414.24 miles operated, 3,286.21 miles are owned by the companies comprising the system, and 128.03 miles are operated under agreements with other companies. The detailed mileage statement (Section 2) shows the lines operated by each company of the system. The average main track mileage in the system, operated during the year ending June 30, 1902, was 3,252.35 miles, as against 2,922.85 miles for the preceding fiscal year.

Nominally the St. Louis and San Francisco RR. Co. operates no more than the 2,862.30 miles of road designated "St. Louis and San Francisco RR." and "Kansas City, Fort Scott and Memphis Ry.," but the accounts and statistics of all the roads embraced in the system on June 30, 1902, are combined in its annual report, and are no longer published separately. For that reason this statement has been made to cover the entire system as of June 30, 1902, and the separate statements for the leased and auxiliary roads, except as in Section 23, have been eliminated from the MANUAL.

A bill has been passed by the Texas Legislature authorizing the consolidation of the Paris and Great Northern RR., St. Louis, San Francisco and Texas Ry., Red River, Texas and Southern Ry., Fort Worth and Rio Grande Ry., Blackwell, Enid and Texas Ry. (the section of the Blackwell, Enid and Southwestern Ry. lying in Texas), and Oklahoma City and Texas RR., under the name of St. Louis, San Francisco and Texas Ry.

Fuller particulars of the developments since June 30, 1902, will be found in Section 4, and separate statements for the controlled companies will be found in subordinate positions to, or following, this statement.

4. History.—Reorganization, June 29, 1896, of the St. Louis and San Francisco Ry. Co. The length of lines then acquired by the company was 1,046.19 miles (see MANUAL for 1897, page 714). On various subsequent dates the company acquired the Kansas City and Southwestern RR., the St. Louis, Salem and Arkansas RR., the Central Division of the Atlantic and Pacific RR., the St. Louis and Oklahoma City RR., the Kansas, Oklahoma and Gulf RR., the Kansas City, Osceola and Southern Ry., the Kansas Midland Ry., the Arkansas and Oklahoma RR., the Oklahoma City Terminal Ry. and the St. Louis, Oklahoma and Southern Ry., thereby increasing its mileage owned to 1,901.74 on June 30, 1901, as shown in the MANUAL for 1902, page 751.

Acquisition of Kansas City, Fort Scott and Memphis System.—In the spring of 1901, persons in the interest of this company purchased substantially the whole capital stock of the Kansas City, Fort Scott and Memphis RR. Co. and of the Kansas City, Memphis and Birmingham RR. Co. On June 14, 1901, the Kansas City, Fort Scott and Memphis Ry. Co. was organized, and to it were conveyed the shares thus acquired. That company afterwards acquired the properties of the Kansas City, Fort Scott and Memphis Ry. Co. (of Oklahoma), Kansas City, Fort Scott and Memphis RR. Co. and Current River RR. Co. The St. Louis and San Francisco RR. Co. owns the capital stock of the Kansas City, Fort Scott and Memphis Ry. Co., and that company owns the capital stock of the Kansas City and Memphis Ry. and Bridge Co., and of the Kansas City, Memphis and Birmingham RR. Co. Effective Aug. 23, 1901, a 99-year lease of the Kansas City, Fort Scott and Memphis Ry. and of the Kansas City and Memphis Ry. and Bridge property was made to the St. Louis and San Francisco RR. Co. at a rental equivalent to the interest on the bonds for which the Kansas City, Fort Scott and Memphis Ry. Co. was liable, and dividends at the rate of 4 per cent. per annum on its preferred stock. The preferred stock, being all owned by the St. Louis and San Francisco RR., has been deposited in escrow as the basis for an issue of an equal amount of trust certificates entitled to dividends at the rate of 4 per cent. per annum and redeemable and payable by this company within twenty years from Oct. 1, 1901.

Acquisition of Fort Worth and Rio Grande Ry.—In May, 1901, and subsequently the St. Louis and San Francisco RR. Co. acquired the capital stock of the Fort Worth and Rio Grande Ry. Co., whose line extended from Fort Worth to Brownwood, Tex., 146.16 miles. An extension from Brownwood to Brady, Tex., about 47 miles, was completed early in 1903, and further extensions to San Antonio and to the Mexican border, are projected.

Construction of Red River, Texas and Southern Ry.—Under the charter of the Red

River, Texas and Southern Ry. Co. a line has been constructed from Sherman to Carrollton, Tex., 52.98 miles, connecting the Red River Division of the St. Louis and San Francisco RR. with the St. Louis Southwestern Ry. of Texas, and a belt line 4.56 miles in length has been constructed at Fort Worth, connecting the Fort Worth and Rio Grande Ry. with the St. Louis Southwestern Ry. of Texas. Trackage rights have been acquired in the St. Louis Southwestern Ry. of Texas, from Carrollton to Fort Worth, 29.8 miles, completing the connection between the St. Louis and San Francisco RR. and the Fort Worth and Rio Grande Ry. The through line was opened for traffic on March 23, 1902. The Red River, Texas and Southern Ry. Co. is controlled by the St. Louis and San Francisco RR. Co.

Blackwell, Enid and Southwestern Ry.—On Feb. 27, 1902, an agreement was made with the Construction Company building the Blackwell, Enid and Southwestern Ry., to purchase, at completion, that road then under construction, extending in a southwesterly direction from Blackwell, Okla., to Vernon, Tex., a distance approximately of 251 miles, together with its equipment. The price agreed to be paid for the completed road together with equipment costing $3,000 per mile, is $18,000 per mile of main track in refunding mortgage bonds of this company at par. On the day on which the purchasing agreement was entered into, a temporary lease was also executed, whereby the Construction Company turned over to this company, on March 1, 1902, 84.33 miles of the completed line between Blackwell, Okla., and the Choctaw Northern Ry. crossing, and that section has since been operated as a part of this system. The rest of the line was taken over for operation as part of this system on Feb. 8, 1903.

Oklahoma City and Western RR.—On April 4, 1902, an agreement was made with the St. Louis Trust Co. to purchase the Oklahoma City and Western RR. on its completion, between Oklahoma City, Okla., and Quanah, Tex., a distance of approximately 184 miles. The price agreed upon is $17,000 per mile of completed road, together with such amount as shall have been expended for equipment. Pending the completion of the entire line, an operating agreement was entered into on May 27, 1902, whereby the contractors turned over to this company, on June 22, 1902, that portion of the line then completed between Oklahoma City and Chickasha, Ind. T., 39.60 miles, and from that date it has been operated as a part of this system. An extension from Chickasha to Snyder, Okla., 84 miles, was taken over for operation as part of the system on Feb. 8, 1903, and the rest of the line, from Snyder, Okla., to Quanah, Tex., 60 miles, on March 29, 1903.

* * * * *

Birmingham Belt RR.—This company bought, as of June 3, 1902, the property of the Birmingham Belt RR. Co., consisting of 15.81 miles of terminal tracks in the city of Birmingham, Ala., together with its equipment; also valuable real estate, franchise, and buildings in the city of Birmingham. The tracks of the Birmingham Belt RR. are used to interchange freight between the various railroads centering at Birmingham, Ala., and the different industries along its tracks. By acquiring this property the system has greatly improved and strengthened its position in the city of Birmingham, Ala., and tributary territory.

Control of Chicago and Eastern Illinois RR. Co.—In Aug., 1902, the company acquired the control of the Chicago and Eastern Illinois RR. Co. by purchasing about 60 per cent. of its preferred stock and about 92 per cent. of its common stock—say 80 per cent. of its outstanding capital stock—on the terms outlined in Section 13. The main line of the Chicago and Eastern Illinois RR. extends from Chicago, Ill., to Thebes on the Mississippi River near Cape Girardeau. At Thebes connection is made with the St. Louis and San Francisco System, a transfer boat being used pending the completion of Thebes bridge.

Taylor City Belt Ry.—About two miles of track have been built by the Taylor City Belt Ry. Co. to connect the tracks of this company and those of the Missouri Pacific Ry. Co. with the World's Fair site of the Louisiana Purchase Exposition Co., in Forest Park, St. Louis. The capital stock of the Taylor City Belt Ry. is owned one-half by each of the two companies interested. The tracks were completed and ready for use in September, 1902.

St. Louis, Memphis and Southeastern RR.—Effective Nov. 1, 1902, the company purchased the entire capital stock of the St. Louis, Memphis and Southeastern RR. Co., amounting to $12,500,000, and issued $4,000,000 of 4 per cent. collateral trust notes in payment therefor. The St. Louis, Memphis and Southeastern RR. will extend, when completed, from St. Louis, Mo., to Luxora, Ark, 249 miles, with a branch from Cape Girardeau, Mo., to Hoxie, Ark., 129 miles, and a branch from Mingo to Hunter, Mo., 46 miles—a total of 424 miles. The road is in operation from Cape Girardeau to Hoxie, 129 miles; from Cape Girardeau to Luxora, 126 miles; from Ste. Genevieve to St. Mary's Junction, 11.5 miles, and from Mingo to Hunter, 46 miles. Construction is in progress on the extension from Cape Girardeau to St. Mary's Junction and from Ste. Genevieve to St. Louis. At Luxora connection is made with the Deckerville-Luxora Branch of the Kansas City, Fort Scott and Memphis Ry., and when the line from Cape Girardeau to St. Louis is completed, a new and short route will be opened between St. Louis, Memphis and Birmingham.

St. Louis and Gulf Ry.—The St. Louis and San Francisco RR. Co. purchased, in Nov., 1902, the entire capital stock of the St. Louis and Gulf Ry. Co, amounting to $6,000,000. The St. Louis and Gulf Ry. Co. owns 197 miles of completed road (Cape Girardeau to Caruthersville, Mo., 122 miles; Gibson to Caligoa, 16 miles; Kennett to Leechville, 26 miles; Pascola to Deering, 6 miles; Bloomfield to Zalma, 24 miles; and Aquilla to Zeta, 3 miles), and has 36 miles additional under construction or partly finished.

The Kansas Southwestern Ry. Co.—This company purchased from The Atchison, Topeka and Santa Fe Ry. Co. one-half interest in the Kansas Southwestern Ry., extending from Arkansas City to Anthony, Kan., a distance of 59.35 miles. Since October 26, 1901, this road has been operated independently for account of the two companies owning it. It has no floating or bonded debt.

Control Acquired by Rock Island Company.—Under date of May 12, 1903, a circular was issued by Messrs. J. P. Morgan & Co., offering to purchase all or not less than 225,000 shares of the common stock of this company for and in behalf of the Chicago, Rock Island and Pacific RR. Co., at the price of $60 per share in 5 per cent. gold bonds of the Chicago, Rock Island and Pacific RR. Co. and $60 per share in common stock of the Rock Island Co. Up to Aug. 13, 1903, shares of common stock to the number of 282,940 were deposited in acceptance of this offer.

POOR'S BUREAU

OF

Information and Investigation,

Conducted in connection with and as an adjunct to

Poor's Manual of Railroads,

WILL FURNISH UPON ORDER

Detailed information relative to new or projected Railroads,

Analyses of Railroad and other reports,

Statistics of Steam, Electric, Cable and Horse Railways,

Advance information relative to Railroad reports, etc.; or will make

Full and comprehensive investigations into Railroad mortgages, bonds, leases or other contracts.

In a word, we propose to furnish information of any character coming within the scope of this Bureau, but not contained in or within the province of our three annual publications, viz.:

POOR'S MANUAL OF RAILROADS,
POOR'S HAND-BOOK ON INVESTMENT SECURITIES,
POOR'S DIRECTORY OF RAILWAY OFFICIALS and
MANUAL OF AMERICAN STREET RAILWAYS.

Subscribers to any of the above-named works may address their inquiries to us, and a prompt reply will be mailed at a cost based upon the length of time occupied on the work.

Special attention will be given to the preparation of Historical Statements of existing or defunct corporations; to investigations into the value of old railroad bonds, and to the preparation of statistical exhibits designed to show the value of railroad securities. Besides this, investigations will be made at any time through official channels into the status of new projects, and reports made thereon. Proceedings in foreclosure or reorganization will be carefully followed, and all facts relating to such proceedings noted for reference.

It is believed that the establishment of this Bureau will prove of great benefit to the subscribers for our annual publications, as it will enable them at a nominal cost to avail of our unequalled facilities for the collection of news items relative to Railroad Investments or projects, besides securing the privilege of access to our Library, which contains all reports and documents issued during the past *half century*.

Annual subscribers to this Bureau may call for whatever information they desire during the period of their subscription. Terms upon application. Address

JOHN P. MEANY, Manager,

68 William Street, New York, N. Y.

The issue is limited to $30,000,000, at the rate of $18,000 per mile of single track, $8,000 per mile additional for double track, and $7,000 per mile for equipment, the issue under the last-mentioned provision, however, not to exceed the actual cost of equipment.

The Magnolia Branch (Magnolia to McNeil, Ark., 6.4 miles, not included in the above statement of mileage) is leased to and operated by the Louisiana and Northwest RR. Co. for the term of 20 years from Aug. 1, 1898, at a rental of $3,960 per annum.

2. **History.**—Reorganization of the St. Louis, Arkansas and Texas Ry. Co., whose property was sold under foreclosure in Oct., 1890. Three distinct companies were formed Jan. 12, 1891—the St. Louis Southwestern Ry. Co., the St. Louis Southwestern Ry. Co. of Texas, and the Tyler Southeastern Ry. Co. (see MANUAL for 1892, page 558). On Oct. 6, 1899, the Tyler Southeastern Ry. Co. was absorbed by the St. Louis Southwestern Ry. Co. of Texas. On Jan. 3, 1901, the company purchased at foreclosure sale the Stuttgart and Arkansas River RR., extending from Stuttgart to Gillett, Ark., a distance of 34.8 miles, and has operated it as the Stuttgart Branch since Jan. 16, 1901. The company owns all the capital stock and guarantees the outstanding bonds of the Gray's Point Terminal Ry. Co. The accounts and statistics of that company are included in this statement.

3. **Dallas Extension.**—An extension from Noel Junction, Tex., on the Fort Worth Branch, to a connection with the tracks of the Dallas Terminal Ry. and Union Depot Co., a distance of about 12 miles, was completed and opened for business on May 15, 1903, and the use of the G., C. & S. F. Ry. track between Wylie and Dallas, 25.2 miles, was discontinued on the same date. The company controls the Dallas Terminal Ry. and Union Depot Co., but the accounts and statistics thereof are not included in this statement.

4. **Interests in Other Companies.**—The company owns a majority of the capital stock and a majority of the funded debt of the Paragould Southeastern Ry. Co., and 50 p. c. each of the capital stock and funded debt of the Pine Bluff Arkansas River Ry. Co. Statements for those companies and for the Dallas Terminal Ry. and Union Depot Co. are subjoined hereto.

5. **Contracts and Agreements.**—Under a contract effective Aug. 1, 1898, this company uses the tracks of the Gulf, Colorado and Santa Fe Ry. Co. between Wylie and Dallas, Tex., including terminals at Dallas, while the Gulf Company has the use of tracks between Wolfe City and Sherman, Tex., and terminals in Sherman, belonging to this company. Under an agreement effective April 1, 1900, this company has trackage rights for passenger trains over the Texas and Pacific Ry. between Hodge and Ft. Worth, Tex., 6.5 miles, and joint use of the Texas and Pacific union passenger station and terminals at Ft. Worth. A traffic agreement for the joint use of the terminals of the St. Louis, Iron Mountain and Southern Ry., at Memphis, Tenn., under the terms of which this company has established independent local freight and passenger agencies at that point, became effective on May 15, 1900. An agreement was entered into with the St. Louis, Iron Mountain and Southern Ry. Co., covering freight and passenger service between Delta and St. Louis, Mo., under the terms of which, effective Oct. 15, 1900, this company is afforded trackage rights for its passenger trains between Delta and Bismark, Mo., at which point connection is made with the St. Louis, Iron Mountain and Southern Ry., in whose trains this company's passenger cars enter and depart from Union Station, St. Louis, Mo. Under the terms of this contract the St. Louis, Iron Mountain and Southern Ry. also transports freight traffic for this company between Delta and St. Louis, Mo., and grants the joint use of their terminals at the latter point.

11. Funded Debt.—The funded debt, as per general balance sheet of June 30, 1902, consisted of certificates for $20,000,000 1st gold 4s of Nov. 1, 1989, and $10,000,000 2d income gold 4s of Nov. 1, 1989, and of $12,054,750 1st consol. gold 4s of June 1, 1932. Of the 2d mtge. income bond certificates, $6,727,500 are deposited with the trustee under the 1st consolidated mortgage, leaving only $3,272,500 of that issue actually outstanding. The two issues of bond certificates represent 1st mtge. bonds and 2d mtge. bonds of the constituent companies deposited with the trustees—$9,895,000 1st mtge. bonds and $4,947,500 2d mtge. income bonds secured on the St. Louis Southwestern Ry., exclusive of the Stuttgart Branch; $9,445,000 1st mtge. bonds and $4,722,500 2d mtge. income bonds of the St. Louis Southwestern Ry. Co. of Texas; $660,000 1st mtge. bonds and $330,000 2d mtge. income bonds of the Tyler Southeastern Ry. Co. (secured on the Lufkin Branch of the St. L. S. W. Ry. of Tex.). Interest on 2d mtge. bonds, at the rate of not exceeding 4 p. c. per annum, non-cumulative, is declared in Oct. and April, if earned in the preceding calendar half years, and is payable on Jan. 1, or July 1 following the declaration.

First Consol. Mtge. Gold Bonds.—These bonds are authorized to the amount of $25,000,000. The outstanding bonds were issued, $6,000,000 of them to provide for present capital requirements, including the retirement of the equipment obligations and the remaining $6,054,750 in exchange for $6,727,500 2d mtge. income bond certificates. The unissued bonds are reserved—$2,945,250 for the retirement of the $3,272,500 2d mtge. income bond certificates still outstanding at the rate of exchange of $900 consols for $1,000 income bonds, and $10,000,000 (together with any surplus bonds not used or required for refunding the 2d mtge. income bonds) for the acquisition of branch lines, at a rate not exceeding $20,000 per mile, and for betterments, additions and new equipment. The bonds are secured upon the entire property of the company, subject to prior liens, and are additionally secured by deposit of the $6,727,500 of 2d mtge. income bonds already exchanged. They are secured by first mortgage on the property formerly owned by the Stuttgart and Arkansas River RR. Co., including the line from Stuttgart to Gillett, Ark., 34.8 miles, and will be secured on any additional lines and property acquired with their proceeds, either by direct mortgage or by deposit of the securities representing the ownership of such additional lines and property. By the terms of the mortgage all securities deposited as collateral under it are to be first made non-negotiable; and provision is also made for the cancellation of deposited bonds as fast as the whole of any issue is delivered to the trustee of this mortgage. It is also provided that any income received from securities deposited as collateral shall constitute a sinking fund (a) for the purchase of bonds secured by the mortgage, or of 2d mtge. income bonds, and (b) for the acquisition of additional property (to be covered by the mortgage); any bonds acquired through the operation of the sinking fund to be deposited under the mortgage as additional security therefor.

10. Capital Stock.—The authorized capital stock is $50,000,000 in $100 shares, the amount unissued being available for future needs of the company.

11. Funded Debt.—The funded debt outstanding on Dec. 31, 1902—total, $53,141,911.99, as per general balance sheet—consisted of $7,000 old 6 p. c. bonds unredeemed and the following live issues (additional particulars are in the Ready Reference Bond List—see General Index):

$2,941,000 *Eastern Division 1st gold sinking fund 6s of March* 1, 1905, secured on the line from Texarkana and Marshall to Fort Worth. There is a sinking fund provision in the mortgage for redemption each year of 2 p. c. of the bonds outstanding, at par.

$22,063,333.78 1*st consol. gold* 5*s of June* 1, 2,000, secured on all the property and assets of the company, of whatever name or nature, except such as are covered by the lien of the new Louisiana Division Branch Lines Mortgage, but subject in lien to the Eastern Division 1st mtge. bonds on the line from Texarkana and Marshall to Fort Worth. For the retirement of these prior lien bonds $2,941,000 of the 1st consol. mtge. bonds are reserved by the trustee.

$24,981,578.21 2*d consol. income gold* 5*s of Dec.* 1, 2000, secured on the same property as the 1st consols, but subject to the lien thereof. Interest is payable only to the extent that the yearly net earnings will permit, and is non-cumulative. The first payment of interest, 1½ p. c., was made on March 1, 1900; the second, 4 p. c., on March 1, 1901; the third, 5 p. c., on March 1, 1902, and the fourth, 5 p. c., on March 1, 1903. In connection with the last payment, bondholders were offered the privilege of subscribing at 80 for such an amount of bonds of the same issue held in the treasury of the company as would be equal to the amount of interest due to them. The mortgage provides that in case of the non-payment of full interest in any year, the trustee may take possession of the property and manage it under the direction of a committee of the bondholders. It is also provided that if, in the opinion of two-thirds of the directors, it becomes necessary to build or acquire branch lines, the interest on expenditures for such purposes up to $12,500 per mile shall be made a rental charge to take precedence of the interest on the 2d consol. mtge. bonds. Holders of these bonds have the privilege of exchanging them for 65 p. c. of their face value in unifying and refunding mortgage bonds of the St. Louis, Iron Mountain and Southern Ry. Co.

$3,161,000 *Louisiana Division Branch Lines 1st gold of Jan.* 1, 1931. These bonds are authorized to the amount of $7,000,000, for the construction or acquisition of extensions and branch lines in the States of Louisiana and Arkansas, at the rate of $12,500 per mile of constructed and equipped road. The bonds outstanding were issued to reimburse the company the cost of the lines constructed during 1900-1901, to replace $312,000 of bonds secured on the Port Allen Branch, and to pay for the railroads purchased (see Sec. 2). These bonds cover the Port Allen Branch, 80 miles; the La Fourche Branch, 28.2 miles; the Avoyelles Branch, 34.2 miles; the Texarkana District, 71.24 miles; and the Natchitoches Branch, 50.84 miles—a total of 264.48 miles.

Out of the net earnings of the Mason City and Fort Dodge RR., in its possession but not otherwise, this company agrees to pay the coupons of the bonds issued by that company, it being agreed that the surplus of net earnings shall belong to this company. The purposes for which the amounts outstanding on June 30, 1901, were issued are shown by a statement in the MANUAL for 1902, on page 525. With the proceeds of $2,500,000 of 4 p. c. debenture stock, and $25,000 of preferred A stock, issued during the year ending June 30, 1902, the company paid $366,475.81 of car trust liabilities, bearing 5 p. c.; $450,909.07 sterling loans, bearing 6 p. c.; $464,819.45 for rolling stock purchased, and the balance for additional terminals and improvements; $500 of debenture stock and $600 of preferred A stock were issued in exchange for the last outstanding $1,000 1st mtge. bond of the Chicago, St. Paul and Kansas City Ry. Co., and $7,850 of common stock was issued in exchange for stock and income bonds of the same company. The $2,000,000 of preferred B stock and $2,060,000 of common stock were issued in exchange for $4,060,000 of stock of the Wisconsin, Minnesota & Pacific RR. Co.

Between June 30, 1902, and July 15, 1903, there were issued $3,250,000 of debenture stock and $6,538,000 of common stock, besides small amounts of preferred stock A and B. The debenture stock was issued for additions, improvements and new equipment; the common stock for the purchase of the Mason City and Fort Dodge lines and for other purposes. The authorized common stock has been increased from $30,000,000 to $50,000,000.

9. Debenture Stock.—This issue partakes of both the nature of stock and bonds. As a stock it participates in the management by voting at stockholders' meetings in all respects the same as other stocks. Like a bond it bears a fixed rate of interest of 4 p. c. per annum, which is payable in gold on the 15th of Jan. and July. Payments are made to European holders at the office of R. Benson & Co., London, Eng., and to American holders by check. (See Secs. 14 and 15.)

10. Preferred Stock "A."—This issue also participates in the management by voting at stockholders' meetings the same as the other stocks of the company. It ranks next to the debenture stock, and is entitled to a non-cumulative dividend not exceeding 5 p. c. per annum, which under a trust deed must be paid semi-annually whenever earned. (See Secs. 14 and 15.)

11. Preferred Stock "B."—This is an ordinary preferred stock, entitled to non-cumulative dividends at not exceeding the rate of 4 p. c. per annum, in preference to common stock. It also participates in the management, by voting at stockholders' meetings, the same as the other stocks of the company.

12. Common Stock.—Entitled to such dividends as the net earnings of the company will justify in each year, after paying or providing for the interest on the 4 p. c. debenture stock, and the dividends on the preferred stock "A" and preferred stock "B." It also participates in the management by voting at stockholders' meetings, the same as the other stocks of the company.

13. Deed of Trust, Debenture Stock and Preferred Stock "A."—The interest rights of the 4 p. c. debenture stock, and the special dividend rights of the preferred stock "A," are secured by a deed of trust and contract between the company and the Manhattan Trust Co. of New York, as trustee. The trust deed and contract defines the respective rights of each class of stock, and is a mortgage security for the interest rights of the debenture stock and the dividend rights of the preferred stock "A." Among other things it provides for an annual meeting of the debenture and preferred "A" stockholders collectively, to elect a finance committee, consisting of five of their own members. This committee has an absolute veto power on the action of the directors involving the issue of new securities and the making of expenditures of money, except for operating expenses, and further has authority to appoint an independent auditor to make periodical examinations of the accounts of the company. "If at any time a controversy should arise as to the amount of net earnings applicable to the payment of dividends on the 5 p. c. preferred stock 'A,' the decision of the committee is final and conclusive." Upon default of the company to pay interest on the 4 p. c. debenture stock, or to appropriate surplus earnings for payment of dividends on the 5 p. c. preferred stock "A" the committee has power, under an extraordinary resolution of the debenture and preferred "A" stockholders collectively, to appoint a receiver to enter into possession and manage the property, under its direction, on behalf of the debenture and preferred "A" stockholders.

14. Authority Required for Issuing Additional Debenture Stock or Preferred Stock "A."—No additional debenture or preferred stock "A" can be issued until authorized (a) by a vote of two-thirds in amount of all four classes of stock, collectively, at a meeting called for that purpose, and (b) by a vote of a majority in amount of the debenture and preferred "A" stockholders, attending a separate meeting of those two classes of stock, collectively.

15. Priority as to Principal of Stock.—It is provided that in case of liquidation, the net assets of the company shall be applicable to the payment in gold of the capital of the different classes of stocks or securities in the same order of priority as the interest or dividends on such stocks or securities are provided to be paid.

1. History.—Chartered Sept. 18, 1889, as successor to the Minneapolis and St. Cloud Ry. Co. (see MANUAL for 1891, page 224). The St. Paul, Minneapolis and Manitoba Ry. is leased for 999 years from Feb. 1, 1890, this company guaranteeing dividends of 6 p. c. per annum, payable in gold on the $20,000,000 capital stock of the lessor, and guaranteeing the payment of both the principal and the interest of the "Manitoba's" bonds. In Oct., 1898, and subsequently, the company acquired about 97 2-3 per cent. of the capital stock of the "Manitoba" Company, by issuing its own stock in exchange therefor at the rate of $125 for $100. The company having purchased the entire capital stock of the Seattle and Montana RR. Co. began to operate the railroad thereof on Aug. 1, 1898. The Park Rapids and Leech Lake Ry. is operated under a lease effective May 1, 1899, and to run from year to year until cancelled on sixty days' notice by either party. All the outstanding capital stock and securities of that road are owned by the Great Northern Ry. Co. The Eastern Ry. of Minnesota is leased for 99 years from May 1, 1902, at a rental of the interest on its bonds and dividends at the rate of 6 per cent. per annum on its capital stock. The entire capital stock of that road is owned by the Great Northern Ry. Co.

Consolidated Mortgage Gold Bonds.—Secured by first mortgage on the land grant (see Sec. 20) and on 655.66 m. of railroad in Minnesota not covered by the first (2d) and Dakota Extension mtges., and secured by second mortgage on the lines covered by those mortgages. The authorized issue is $50,000,000, of which a sufficient amount is reserved for the retirement of prior liens. The mortgage provides that the net proceeds of the sale of granted lands, and all money accruing to the company from any disposition made of the lands, together with the proceeds of sale of any other lands, machinery, equipment, and other property not needed by the company or unfit for use, shall be pledged to the payment of interest on the consol. mtge. bonds and to the purchase of those bonds at the lowest price for which they can be obtained; but there is no provision for the compulsory retirement of the bonds before maturity. Principal and interest are guaranteed by the Great Northern Ry. Co.

Montana Extension Gold Bonds.—These bonds were issued on the line from the Dakota Boundary to Great Falls, Mont. By the terms of the mortgage, however, these bonds are a lien upon all of the St. P., M. & M. Ry. in the State of Montana. Therefore, to secure the holders of the Pacific Extension bonds (see next paragraph), $11,502,000 of Montana Extension bonds were issued and deposited with the trustees of the Pacific Extension bonds. The authorized issue is $25,000,000. Principal and interest are guaranteed by the Great Northern Ry. Co.

Pacific Extension Sterling Bonds.—£6,000,000 sterling of these bonds were authorized to cover the line from Pacific Junc., Mont., to a connection with the Seattle and Montana Ry. Line at Everett, Wash.; of these £3,000,000 sterling were sold and are now outstanding. The remaining £3,000,000 sterling are owned by the Great Northern Ry. Co. and are carried among its treasury assets. They are additionally secured by deposit with the trustee of the Pacific Extension mortgage of $11,502,000 Montana Extension bonds. Principal and interest guaranteed by the Great Northern Ry. Co.

Under date of March 18, 1901, it was announced that the St. Paul, Minneapolis and Manitoba Ry. Co. had agreed to issue its bonds to the amount of $5,000,000 for the purpose of acquiring title, to that extent, to the additions and improvements made to its property since the date of the lease thereof to the Great Northern Ry. Co. (See General Balance Sheet—Cost of St. P., M. & M. Ry.) These bonds have been acquired during the past fiscal year by the G. N. Ry. Co. and same are now held in the company's treasury.

1. History.—Reorganization in 1888 of the Central Iowa Ry. Co. (see MANUAL for 1890, page 512). Under date of Aug. 1, 1881, the company leased its line of road from Manly Junction to Northwood, Ia., a distance of 11 miles, to the Burlington, Cedar Rapids and Northern RR. Co., for a term of 25 years, at an annual rental of $14,000. Subsequently, by order of the courts, the company was required to continue to operate its trains over that portion of its line, but, under the terms of the lease, the receipts from such train service accrued to the lessee. In view of this unsatisfactory condition and the advantage of owning or controlling a line of road to Albert Lea, Minn., where connection is had with the Minneapolis and St. Louis RR., Illinois Central RR., and Chicago, Milwaukee and St. Paul Ry., the lease above referred to was abrogated and a new agreement entered into, under date of July 1, 1901, with the Burlington, Cedar Rapids and Northern Ry. Co., which provides for the joint and equal use, in perpetuity, of that portion of the company's line of road from Manly Junction to Northwood, Ia., and of about 16.7 miles of the Burlington, Cedar Rapids and Northern Ry. Co's. line of road, from Northwood, Ia., to Abert Lea, Minn.

The company further obligates itself to apply these earnings accruing to the Iowa Central and Western Ry. Co. from the lease of its property toward the payment of interest on, and the principal of, the mortgage indebtedness of the latter company.

2. History.—Reorganization, in July, 1896, of the Northern Pacific RR. Co. The plan of reorganization is outlined in the Manual for 1896, on page 690 *et seq.*, and a sketch of the history of the system down to June 30, 1901, is in the Manual for 1901, on page 581 *et seq.*

New Construction.—During the year ending June 30, 1902, the following branches and extensions were completed and put in operation: Oberon Branch, from Oberon, N. D., northwesterly, 28.07 miles; Ruby Valley Extension, from Twin Bridges, Mont., to end of track, 19.39 miles; Green River Branch, from Kanaskat, Wash, to end of track, 5.03 miles—total, 52.49 miles. The construction of the following branches or extensions has been authorized, but the same were not completed June 30, 1902: Peninsular Branch, from Hoquiam to south boundary line of Quinaiult Indian Reservation, 27.90 miles; extension Sykeston Branch, from Bowdon to Howe, N. D., 26.47 miles; Bismarck to Edgeley Extension, from Bismarck to Linton, N. D., 45 miles; Seattle Extension, from Black River Junction to Argo, Wash., 6.48 miles; Park Branch Extension, from Cinnabar to Gardiner, Mont., 2.52 miles—total, 108.37 miles. All of the above construction is from funds provided under the terms of the prior lien mortgage, and the lines become a part of the estate of this company, subject to the same.

Lines Abandoned.—The 4.19-mile section of the Spokane and Seattle Ry., from Spokane, Wash., to connection with Great Northern Ry., and 6.42 miles of the Cœur d'Alene Branch near Wardner, Id., have both been abandoned.

Purchase of Minneapolis and Duluth RR.—The line from White Bear to Minneapolis, Minn., 13.19 miles, operated on June 30, 1901, under a lease from the Minneapolis and St. Louis RR. Co. to the St. Paul and Duluth RR. Co., was purchased by this company on Nov. 1, 1901, the consideration being $1 in hand and the assumption of a mortgage securing $280,000 of 1st mortgage 7 per cent. gold bonds due Jan. 1, 1907.

Other Recent Acquisitions.—On May 26, 1902, the company purchased for $550,000 in cash the property of the Duluth Transfer Ry. Co., and on June 16, 1902, it purchased the Washburn, Bayfield and Iron River RR., 33.77 miles, paying therefor $125,673.74. The company has also purchased the Union Depot Transfer Ry., at Stillwater, Minn., the purchase price being $95,000. All three properties have been conveyed by deed to the Northern Pacific Ry. Co. and now form integral parts of its system. Since the close of the fiscal year ending June 30, 1902, the company has acquired the Washington and Oregon RR., the Monte Cristo Ry., the Bellingham Bay and Eastern RR., and the Port Townsend Southern RR., but those lines are not as yet operated as parts of the Northern Pacific System. Statements for the Bellingham Bay and Eastern RR., the Monte Cristo Ry. and the Port Townsend Southern RR. are subjoined hereto. The Washington and Oregon RR. is a new road, built in 1902. It extends from Kalama to Vancouver, Wash., 28.5 miles.

Lines Leased to Manitoba Government.—The company's railroad lines and property within the Province of Manitoba are leased to the Manitoba Government, for 999 years from June 1, 1901, at a rental of $210,000 a year for the first ten years, $225,000 a year for the second ten years, $275,000 a year for the third ten years, and $300,000 a year thereafter, the lessee having the option to purchase the property at any time for $7,000,000.

Burlington Purchase.—Effective July 1, 1901, this company and the Great Northern Ry. Co., jointly, acquired the control of the Chicago, Burlington and Quincy RR. Co., by the purchase of approximately 98 per cent. of its capital stock for $200 per share in joint bonds of the purchasing companies (see MANUAL for 1901, page 584; also, Section 9 of this statement).

Leased and Controlled Lines.—The Washington Central RR. (see Sec. 15), is leased for 999 years from March 1, 1898, all of its capital stock being owned by the Northern Pacific Ry. Co. The Minnesota and International Ry. and the Washington and Columbia River Ry. are controlled by the Northern Pacific Ry. Co., but are operated as separate organizations. Separate statements for them will be found on pages 606 and 607.

3. Water Lines.—In addition to its railway lines the company operates one steamer on Cœur d'Alene River, between Harrison and Cœur d'Alene City, one steamer on the Columbia River, between Kalama and Goble; and one steamer on the Clearwater River.

4. Terminals.—The following is a detailed statement of the terminal tracks included in the mileage of the Northern Pacific Ry. Co., June 30, 1902:

Prior Lien Gold Bonds.—These bonds are a first lien, either by direct mortgage or through ownership of the securities, upon the entire property and assets of the company, save those covered by the St. Paul and Northern Pacific general mortgage, and the St. Paul-Duluth Division mortgage, upon which, subject to their existing underlying mortgages, they likewise have subsisting liens. The amount authorized is $130,000,000, the unissued bonds being reserved for the retirement of the bonds of the Western RR. of Minn. and of the St. Paul and Northern Pacific, and to provide for new construction and improvements; the issue for new construction, etc., not to exceed the amount of $1,500,000 in any one year. The net proceeds of the land grant are applicable, to the extent of one-half, but not exceeding $500,000 in any one year, to the purchase of prior lien bonds at the price of not exceeding 110 p. c., and their cancellation, the other half to be applied, under carefully guarded restrictions, to the extension and improvement of the property covered by the mortgage.

General Lien Gold Bonds.—These are secured on the same property as the prior lien bonds, but subject in lien thereto. The general lien mortgage authorizes a present issue of $60,000,000 bonds, besides a reserve of $130,000,000 to provide for the prior lien bonds on or before their maturity. The $4,000,000 unissued bonds of the present issue are reserved, under carefully guarded restrictions, to provide for construction, betterments, equipment, etc. Whenever prior lien bonds cannot be purchased at 110 p. c. (see preceding paragraph), the land receipts available for that purpose may be applied to the purchase of general lien bonds at not exceeding 100 p. c., and their cancellation.

St. Paul-Duluth Division Gold Bonds.—Secured on the railroad property formerly of the St. Paul and Duluth RR. Co., comprising the Duluth Short Line, the Fond du Lac, West Superior, Grantsburg, Cloquet, Miller, Taylor's Falls, and Stillwater Branches, the terminals at the head of Lake Superior, and the lease of the line from White Bear to Minneaapolis (title to which was acquired by the N. P. Ry. Co. on Nov. 1, 1901). They are subject in lien to the bonds and car trust obligations of the St. Paul and Duluth RR. Co. (assumed by the N. P. Ry. Co., and included in the preceding statement of funded debt), of which there were in all $4,942,733.40 outstanding on June 30, 1902. The lands included in the land grant of the St. Paul and Duluth RR. Co. were not included in the old mortgages of that company. The title to such lands has been vested directly in the Northwestern Improvement Co., which company issued therefor $4,000,000 of debentures to the Northern Pacific Ry. Co. These debentures have been deposited with the Guaranty Trust Co. of New York, trustee under the St. Paul-Duluth Division mortgage, as additional security for the St. Paul-Duluth Division bonds, under an agreement by which, as the lands are sold, the proceeds are to be applied to the purchase of the St. Paul-Duluth Division bonds at a price not exceeding 105 and accrued interest, or if the bonds cannot be purchased at that price, then to betterments or additions to the mortgaged premises. According, as the lands are sold and the proceeds applied as above, a corresponding amount of the deposited debentures will be cancelled. The amount of bonds authorized by the mortgage is $20,000,000, of which $10,186,000 have been issued, but $1,429,000 of these have been retired with net proceeds from land sales, and cancelled. Of the unissued bonds, $4,957,000 are reserved for the retirement of the underlying bonds and car trust obligations, $407,000 for improvements to existing property, and $4,450,000 for extensions and additional branches, terminal properties, and to double track existing lines.

Northern Pacific-Great Northern Joint Gold Bonds, Burlington Collateral.—Authorized to the amount of $222,400,000, of which $215,154,400 of bonds and scrip had been issued at the close of the fiscal year, June 30, 1902. Issued for the purpose of acquiring the capital stock of the Chicago, Burlington and Quincy RR. Co. at the price of $200 per share, and secured by deposit of the shares acquired, $107,577,200, as of June 30, 1902. The stock thus deposited is owned, one-half by the Northern Pacific Ry. Co. and one-half by the Great Northern Ry. Co., and the obligation on account of the bonds is apportioned in like manner between the issuing companies, each one-half. In the event of either company defaulting in its obligations, the company not in default becomes the sole owner of the deposited shares, and assumes the entire liability on account of the bonds. The bonds are subject to redemption on any Jan. 1 or July 1, after Jan. 1, 1906, at 105 p. c. and accrued interest.

Western RR. of Minn. 1st Mtge. Bonds.—These bonds are secured on the section of the St. Paul and Northern Pacific RR. from Sauk Rapids to Brainerd, Minn., 60.5 m., and on the land grant appertaining to that line.

St. Paul and Northern Pacific Gen. Mtge. Gold Bonds.—The St. Paul and Northern Pacific gen. mtge. bonds are subject to the Western Minnesota bonds on the line from Sauk Rapids to Brainerd and on the land grant, and are a first lien on the rest of the railroad and property formerly of the St. P. & N. P. Ry. Co.

Co. on June 30, 1898 (see MANUAL for 1899, page 654), less one-half of mileage owned jointly with the Northern Pacific Ry. Co., a total of 171.9 miles. Provision is made in the St. Paul-Duluth Division mortgage of the Northern Pacific Ry. Co. for the retirement of these bonds on or before their maturity.

St. Paul and Duluth 2d Mtge. Bonds.—Secured on the same property (171.9 miles) as the 1st mtge. bonds, but subject in lien thereto. Provision is made in the St. Paul-Duluth Division mortgage of the Northern Pacific Ry. Co. for the retirement of these bonds on or before their maturity.

St. Paul and Duluth Consol. Mtge. Gold Bonds.—Secured on the St. Paul-Duluth Division, less one-half of the line (total length, 23.2 miles) between Carlton and Duluth, a total of 213.3 miles, but subject to prior liens. Provision is made in the St. Paul-Duluth Division mortgage of the Northern Pacfic Ry. Co. for the retirement of these bonds on or before their maturity.

Stillwater and St. Paul RR. Bonds.—Secured by first mortgage on the Stillwater Branch, 12.58 miles. St. Paul-Duluth Division bonds are reserved for the retirement of the $2,500 not presented at maturity.

Taylor's Falls and Lake Superior RR. Bonds.—Secured by first mortgage on the Taylor's Falls Branch, 20.5 miles. Provision is made in the St. Paul-Duluth Division mortgage of the Northern Pacific Ry. Co. for the retirement of these bonds on or before their maturity.

Duluth Short Line RR. Bonds.—Secured by first mortgage on the line from Thompson, Minn., to West Superior, Wis., 17.75 miles. Provision is made in the St. Paul-Duluth Division mortgage of the Northern Pacific Ry. Co. for the retirement of these bonds on or before their maturity.

Co., as follows: Series A, $26,274, being 15 notes of $1,751.60 each, payable monthly; Series B, $177,348.24, payable $14,779.02 each, Jan. 1 and July 1; Series C, $29,111.16, payable $2,239.32 each, Dec. 15 and June 15.

10. Land Department.—To aid in the construction of the road Congress voted to the Northern Pacific RR. Co. a land grant of 12,800 acres per mile within the States of Wisconsin, Minnesota, and Oregon, and of 25,600 acres per mile within the Territories of Dakota, Montana, Idaho, and Washington. By the completion of its main line the company earned approximately 43,000,000 acres, of which, according to the record of the General Land Office, 24,829,259.26 acres had been patented previous to June 30, 1901.

At the foreclosure sale of the Northern Pacific RR. Co.'s property the lands lying west of the Missouri River were purchased by the Northern Pacific Ry. Co., the aggregate price paid therefor being $5,605,200. By the absorption of the St. Paul and Northern Pacific Ry. 141,175.62 acres additional were acquired.

1. History.—The Union Pacific RR. Co. was organized July 1, 1897, under an act of the Legislature of Utah, approved Jan. 22, 1897, to carry out the plan of reorganization of the Union Pacific Ry. Co. An outline of that plan is in the MANUAL for 1896, on pages 920 and 921, and a review of the reorganization and of the development of the system is in the MANUAL for 1902, on pages 556 *et seq.* The company controls the Oregon Short Line RR. Co. and the Oregon RR. and Nav. Co., through ownership of practically the whole of their capital stocks. The three companies are treated as one in the report of the Union Pacific RR. Co., and the securities of one owned by another are eliminated from the balance sheet, leaving only the stocks and bonds outstanding in the hands of the public to be dealt with. The following statement shows the actual capitalization of the Union Pacific RR. Co. and auxiliary companies:

Twenty-Two Years of Protection

(SEPTEMBER, 1888.)

By HENRY V. POOR.

Pp. 222. 8vo. Paper. Price, 50 cents.

PREFACE.

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second the Period of the attempted Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature—a return to the Protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—"Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

but are combined with those of the Union Pacific RR. Co. in the report of that company. For that reason the separate statements for those companies have been practically eliminated from the MANUAL (see Sec. 24). The Union Pacific RR. Co. owns the Leavenworth, Kansas and Western Ry. Co. and is half owner (The Atchison, Topeka and Santa Fe Ry. Co. owning the other half) of the Leavenworth and Topeka Ry. Co. Those companies are operated separately by their own organizations, and their statistics are not included in the report of the Union Pacific RR. Co. The Oregon RR. and Nav. Co. owns the Ilwaco Ry. and Nav. Co., but that company also is operated by its own organization, and its statistics are not included in the report of the Union Pacific RR. Co.

3. Lines of Road Operated.—The following is a detailed statement of the mileage operated by the Union Pacific RR. Co., Oregon Short Line RR. Co. (exclusive of trackage rights) and Oregon RR. and Nav. 4. Changes in Mileage Operated.—During the year ending June 30, 1902, the mileage of the Union Pacific RR. was shortened 9.56 miles by change of line in Wyoming and 6.78 miles by the abandonment of the Carbon Spur, and was lengthened 0.04 mile at Marysville, Kan., a net decrease of 16.3 miles. A further decrease in mileage operated by the company was occasioned by the surrender on Feb. 1, 1902, of trackage rights between Norfolk, Neb., and Sioux City, Ia., 74.94 miles. The mileage of the Oregon RR. and Navigation Co. was increased by the construction of the branch from a point near Wardner to the Sierra Nevada Mine, 4.37 miles, which line was opened for operation on July 1, 1901. The Snake River Valley RR., from Wallula to Grange City, Wash., 65.85 miles, considered as a branch of the Oregon RR. and Nav. Co.'s. railroad in the report for the year ending June 30, 1901, is not taken into account of mileage as of June 30, 1902, although it is controlled and operated by the company named. The Oregon Short Line RR. Co. increased its mileage by the construction of the Salmon River RR., 85.98 miles, and of the Utah, Nevada and California RR., 40.93 miles, both of which were put in operation in Aug., 1901. It lessened its mileage 5.85 miles by transferring the Syracuse Branch to account of sidings, 9.29 miles by excluding trackage rights (Northern Pacific Ry., from Silver Bow to Butte, Mont., 8.69 miles, and Ogden Union Ry. and Depot tracks, 0.6 mile) and 0.06 mile by remeasurement. There was also an apparent increase of 132.69 miles, the New East Tintic Ry., St. Anthony RR., Utah and Pacific RR. and Wyoming Western RR. not having been included in the statement of lines operated by the Oregon Short Line RR. Co. on June 30, 1901, although they were put in operation before that date.

5. Track Mileage.—Summary of track mileage of the lines embraced in the system on June 30, 1902, exclusive of the Leavenworth and Topeka Ry. and the railroad of the Ilwaco Ry. and Nav. Co.; also, mileage of water lines of the Oregon RR. and Nav. Co.:

	First Track.	Second Track.	Side Track.	Total Track.	Water Lines.
	Miles.	*Miles.*	*Miles.*	*Miles.*	*Miles.*
Union Pacific RR.	2,948.88	74.41	937.38	3,960.67	....
Leavenworth, Kansas & Western Ry.	165.65	....	10.90	176.55	....
Oregon Short Line RR.	1,739.99	2.18	302.76	2,044.93	....
Oregon RR. & Navigation Co.	1,075.02	....	152.74	1,227.76	1,035.00
Totals	5,929.54	76.59	1,403.78	7,409.91	1,035.00

Gauge, 4 ft. 8½ in. Two short lines of the Oregon RR. and Navigation Co. are of 3 ft. gauge. Rail (mostly steel), 52 to 90 lbs.

6. Lines Owned, but Not Operated.—The Union Pacific RR. Co.'s line from Ogden, Utah, to a point five miles west is leased to the Central Pacific Ry. Co. The line from Cheyenne to Fort Russell, Wyo., 2.04 miles, is operated by the Colorado and Southern Ry. Co.; the ownership of it is claimed both by that company and by the Union Pacific RR. Co. The Oregon Short Line RR. Co.'s line from Butte to Garrison, Mont., 56.59 miles, is leased to and operated by the Northern Pacific Ry. Co.

7. Water Lines.—The Oregon RR. and Nav. Co. operates steamship and steamboat lines as follows: Ocean Division—Portland, Ore., to San Francisco, Cal., 660 miles. River Division—Lower Columbia River route, Portland to Flavel, Ore., and Ilwaco, Wash., 120 miles; Willamette River route, Portland to Dayton and Eugene, Ore., 177 miles; Snake River route, Riparia, Wash., to Lewiston, Ida., 78 miles—total water lines of O. RR. and Nav. Co., 1,035 miles.

8. Proprietary Railroads.—The Oregon Short Line RR. Co. owns the entire outstanding capital stock of the Boise City Railway and Terminal Co., New East

Tintic Ry. Co., St. Anthony RR. Co., Salmon River RR. Co., Utah and Pacific RR. Co., Utah, Nevada and California RR. Co. and Wyoming Western RR. Co. No bonds have been issued by those companies. The Oregon RR. and Nav. Co. owns all the securities of the Cascade RR. Co., Columbia and Palouse RR. Co., Mill Creek Flume and Manufacturing Co. and Walla Walla and Columbia River RR. Co., and has them deposited as security under its mortgages (see Sec. 23). The same company controls and operates the Snake River Valley RR. Co., and will own its entire capital stock when issued. As these several companies are practically incorporated with the parent companies, it has been decided to discontinue the publication of separate statements for them (see MANUAL for 1902, page 569).

9. Capitalization of System.—The following statements show the mileage and capitalization of the system and the average capitalization per mile on June 30, 1901, and on June 30, 1902, the amounts of stock and bonds held by companies of the system being shown separately from the amounts thereof afloat:

10. Interests in Other Railroad Systems.—The Union Pacific RR. Co. owns $90,000,000, being about 45.5 per cent., of the capital stock of the Southern Pacific Company (see GENERAL INDEX). The Oregon Short Line RR. Co. owns $82,491,871 of the $364,867,849 capital stock of the Northern Securities Co., which holds large interests in the stocks of the Northern Pacific Ry. Co. and Great Northern Ry. Co. In May, 1901, $78,108,000, being more than 50 per cent. of the capital stock of the Northern Pacific Ry. Co., was acquired in the interest of the Union Pacific RR. Co. The title to this stock was vested in the Oregon Short Line RR. Co., and that company provided for the purchase by issuing to the Union Pacific RR. Co. $61,000,000 in 4 per cent. purchase-money certificates of indebtedness, and by borrowing a large amount on its notes. An exchange of the Northern Pacific stock for shares of the Northern Securities Co. was effected, under the terms of which the Oregon Short Line RR. Co. received for its holdings capital stock of the Northern Securities Co. to the amount of $82,491,871 face value, and $8,900,007.40 in cash. The shares of the Northern Securities Co. thus acquired have been deposited as collateral to an issue of an equal amount of 4 per cent. and participating bonds of the Oregon Short Line RR. Co. (see Section 20a), and all of these bonds and the $8,900,007.40 in cash before mentioned have been delivered to the Union Pacific RR. Co. to reimburse it for advances made in connection with the purchase of the Northern Pacific stock. The $61,000,000 of purchase-money certificates given by the Oregon Short Line RR. Co. to the Union Pacific RR. Co., as well as the other obligations incurred in connection with the transaction, have been satisfied and cancelled.

6. Terms of Leases.—The "Omnibus Lease," the terms of which are outlined in the MANUAL for 1902, on page 584, was abrogated as of Dec. 31, 1901. The terms under which the railroads embraced in that lease are now operated are given in the separate statements for those railroads, appended hereto.

Expenditures for betterments, additions and new equipment for account of the proprietary lines, amounting in the aggregate to $7,280,403.50, were this year charged to the capital account of the respective companies.

Expenditures for betterments, additions and equipment to the railways of the South Pacific Coast Ry., the New Mexico and Arizona RR., and the Sonora Ry., amounting to $242,331.93, were charged to the income of the Southern Pacific Co. There were purchased 102 locomotives, 54 passenger train cars, 3,262 freight train cars and 333 road service cars, costing in the aggregate $4,255,944.16 in excess of the requirements of the replacement funds and of the appropriation made from the income of the preceding year. As further large expenditures for equipment are necessary, it was thought best that the Southern Pacific Co. should retain, for the present, the ownership of equipment thus purchased in excess of the equipment already owned by the constituent companies, and should lease such equipment to the constituent companies.

In former reports all receipts from rental of tracks and property were treated as a receipt separate from transportation receipts, and all payments for similar account were treated as an expense separate from operating expenses. In this year's report the receipts or payments for trackage and other rentals have been taken up in the transportation receipts or operating expenses, according to the balance of such receipts or payments of the respective companies. Adjusting the transportation results reported for the preceding year to this year's method in respect of this matter, the operations compare with those of the preceding year as follows:

Average miles of road operated increased	102.51, or	1.18 per cent.
Gross transportation receipts increased	$5,814,393.30, or	7.48 "
Operating expenses increased	5,460,148.01, or	11.04 "
Taxes increased	105,314.96, or	5.91 "
Transportation receipts over operating expenses and taxes increased	248,930.33, or	.83 "
Receipts from all sources over all disbursements charged to income increased	298,623.91, or	2.91 "

The details of the receipts and disbursements of the Gila Valley, Globe and Northern Ry. Co. and of the San Antonio and Aransas Pass Ry. Co., whose bonds are guaranteed by the Southern Pacific Co., but whose receipts and disbursements are not included in the statement of "Income for the Year" (except the advance of $396,300.30 to the San Antonio and Aransas Pass Ry. Co.), are shown in Section 14.

The charges against the income for the year include $369,060.43 advanced by the Southern Pacific Co. to the Oregon and California RR. Co., and $396,300.30 advanced to the San Antonio and Aransas Pass Ry. Co. for operations, betterments and additions, retirement of equipment trust notes and other purposes, but said sums, amounting in the aggregate to $765,360.73, still remain due from said companies to the Southern Pacific Co.

The greater part of the decrease in the gross receipts of the Southern Pacific Co. resulted from a change in the plan of operating the New York, New Orleans and Galveston steamship line. Prior to Jan. 1, 1902, the steamers of the Southern Pacific Co. were leased to the Morgan's Louisiana and Texas Railroad and Steamship Co. and operated by the Southern Pacific Co. as a part of the Morgan Line, and the rentals received for said steamers were treated as receipts of the Southern Pacific Co. Commencing with Jan. 1, 1902, said steamships were operated by the Southern Pacific Co., and their receipts and expenses were, for the purposes of comparison with previous years, included in the transportation receipts and operating expenses herein reported.

Interest on funded debt increased $237,032.49. There was a decrease in interest on funded debt of the proprietary companies, and in interest on notes of the Central Pacific RR. Co. to the United States of $95,927.52, and an increase in interest on funded debt of the Southern Pacific Co. of $332,960.01, resulting principally from a full year's interest charge on the outstanding 2-5-yr. 4½ p. c. gold bonds.

The earnings and expenses of the Pacific Mail Steamship Co. and of the Gila Valley, Globe and Northern Ry. Co. have not been taken into the income for the year, nor are their earnings, expenses, assets or liabilities included in any statements in respect of the operations and transactions of the proprietary companies. A statement of the receipts and disbursements of the Pacific Mail Steamship Co. will be found in Sec. 15.
